

NEW!

For the highest quality scans of all your documents using professional CCD cameras

Colortrac SmartLF SG

Experience an all new scanner with the same charge-coupled device (CCD) sensor technology used in professional quality cameras.

Choose the highest quality scans for all your document types, and get it right the first time.

Produce superior quality images and copies of documents up to 36 or even 44 inch wide.

Scan all types of paper and mounted documents.

Super-easy adjustment for different media thicknesses up to 15 mm.

SUITABLE FOR:

- Hi-Fidelity colour reproduction for scanning and reprographics service professionals
- High Speed Technical Imaging within AEC, CAD, Mapping and GIS
- Electronic Document Capture (TWAIN)

Floor Stand and Return Guides are options. PC Mount Kit, Repro Stand (height adjustable) and other accessories are available.
