**serveIT™**

**s-pire™**  
*(desktop version)*

## Library Self-Checkout Systems

**s-pire** and **m-erge** are exciting additions to D-Tech's state-of-the-art **serveIT** line of self-checkout systems. The kiosks are available in desktop, freestanding and wall-mounted versions, all designed to maximize the functionality of library self-service while minimizing floor space through a small footprint.

The units can check-out barcoded material as well as RFID-tagged items. For libraries outfitting their machines to process fines and fees, options include a PCI-compliant credit card terminal and ApplePay.

All **s-pire** and **m-erge** systems have a large 22-inch touchscreen with simple instructions. They come in a choice of black or white

screen colors and have a generous checkout area surrounded by stylish, LED illumination.

**s-pire** and **m-erge** also feature real-time account information, advanced remote monitoring, and automatic updates. All machines are accessible by users of any age, ADA compliant and include vibrant, large-print multilingual displays with the latest interactive software to engage patrons.

In addition to checkouts, they handle returns, renewals, reservations and recommendations, as well as allowing libraries to inform users of upcoming events and other activities.

## options

### •manageIT™ (remote monitoring)

This exclusive D-Tech web-based software allows libraries to remotely monitor check-ins, check-outs and provide complete information on the satisfaction survey. It records how much the kiosk is used and assures it's working properly. Statistics are collected regularly and can be viewed anytime.

- LED lights
- Phone jack (with braille)
- Card payments
- Satisfaction survey
- RFID/Barcode

## features

- Large 22-inch touchscreen
- Wall-mount, freestanding or desktop
- Customer-focused software
- Android technology
- Advertising and information display area
- Web-based reporting and monitoring
- Unicode language
- Text-to-speech audio in all languages
- Audio sound (external or jack plug)
- Adjustable font size
- Connection to ILS via SIP2 (real time)
- Meets all safety standards, fully CE certified
- ADA-compliant
- Email or paper receipts

## specifications

s-pire (desktop):

Height	17 inches
Width	22 inches
Depth	15 inches
Weight	56 lbs.
Power Consumption	110v-1.2amp
Screen Size	22-inch touchscreen
Scanner	Barcode/RFID
Power Outlet	Back
ILS Communication	SIP2
Audio	3.5 jack plug
Screen	Black or white

s-pire (freestanding):

Height	4 feet (48 inches)
Width	22 inches
Depth	15 inches
Weight	91 lbs.
Power Consumption	110v-1.2amp
Screen Size	22-inch touchscreen
Scanner	Barcode/RFID
Power Outlet	Back
ILS Communication	SIP2
Audio	3.5 jack plug
Screen	Black or white

m-erge (wall-mounted):

Height	23 inches
Width	22 inches
Depth	8 inches
Weight	58 lbs.
Power Consumption	110v-1.2amp
Screen Size	22-inch touchscreen
Scanner	Barcode/RFID
Power Outlet	Back
ILS Communication	SIP2
Audio	3.5 jack plug
Screen	Black or white

## etc.

**s-pire** and **m-erge** were developed on an Android or windows platform to allow libraries to take advantage of the latest technology. It also has more ability to enhance functionality and interconnect with intelligent third-party applications. This new concept in self-checkout solutions allows libraries to engage with patrons like never before — and at a cost that caters to all budgets. Just one of the many ways D-Tech is powering libraries into the future.
