# serveIT S-PIRE

D-Tech's serveIT S-PIRE range is a flexible solution for times when clients may want to save space, use their own furnishings or simply like the look and feel of the unit. The RFID element provides enhanced protection and throughput where required.

Designed and manufactured with a low carbon footprint, the S-PIRE simply sits on your counter or desktop. No compromise on performance, integration or functionality and as with all D-Tech products, the S-PIRE comes with our full support service and 2 year warranty.

## KEY FEATURES

- Compatible with D-Tech 13.56 MHz RFID labels and items tagged with approved labels from book suppliers including multi vendor reading (MVR), allowing reading of other RFID labels
- D-Tech's advanced digital RFID technology uses state of the art, digitally enhanced software to chip technology to ensure superior reading and writing of labels with false alarm free protection
- Integrated barcode scanning as standard with the choice of adding biometrics and or Mifare/smart cards or biometrics for borrower ID
- Software supports multi item issue, returns and renew functions, together with chip & pin and contactless payments
- Offline mode, statistics and email receipts as standard
- Cloud AdminTool network access to change or configure the installed system
- Desktop, wall mount or freestanding configurations available

# X-PLOR

NEXT GENERATION  
SELF-SERVICE  
LIBRARY KIOSK

# serveIT X-PLOR

The X-PLOR is an exciting addition to D-Tech's line of serveIT self-checkout systems. The X-PLOR kiosk is designed to maximize the functionality of self service in a library while minimizing floor space.

X-PLOR's basic configuration is a self-service kiosk that can checkout EM or barcoded material as well as RFID tagged items. Additional options include a PCI compliant credit card terminal as well as a coin and note acceptor that gives change plus Apple Pay.

X-PLOR's large 24" touch screen monitor is user friendly with easy to understand instructions to assure patron success. The large checkout area for material placement is sure to delight patrons with a lot of materials to checkout.

D-Tech's X-PLOR was designed with the future in mind, and that future is now!

## KEY FEATURES

- Expandable kiosk design with small footprint
- Advanced 24" touch screen monitor
- EM, Barcode and/or RFID checkout of materials
- Ergonomic design that meets DDA requirements
- 3D patron library barcode card scanner for fast, accurate scans
- New i16 D-Tech software for robust applications
- Directional lighting indicators
- Payment of fines and fees with optional PCI compliant credit card terminals, coin and note acceptors, student accounts and Apple Pay
- Integrated receipt printer with low paper warning lights
- Secure access compartments for staff to change receipt paper, empty and restock coin and note acceptor
- eBook lending by OverDrive
- WIFI network connection (optional)
- Scheduled shut down and start-up of kiosk saves staff time
- Choice of colours and optional RAL designer shades in durable powder coat finish
