# Content Sharing and Device Management Platform

Discover how our innovative solution can bring unparalleled benefits to your organisation.

## Get Up and Running Quickly

Experience a simple setup without IT skills or extensive manual effort. Get started fast with the browser-based Hublet Manager, offering simplicity without extra costs or complexities. It's user-friendly for everyone, even those who aren't good with tech.

## Keep Data and Privacy Secured

After each device loan, all end-user data is automatically wiped, ensuring a clean start for the following user. Access is restricted to authorised networks, preventing unauthorised device settings and content modifications.

## Manage Content Effortlessly

Easily create and personalise profiles for your shared devices. Update them seamlessly with content items, including apps, website links, documents, and more to reflect subject changes anytime. Apps are automatically updated, keep your profiles fresh, without any manual effort.

## Promote Accessibility and Digital Inclusion

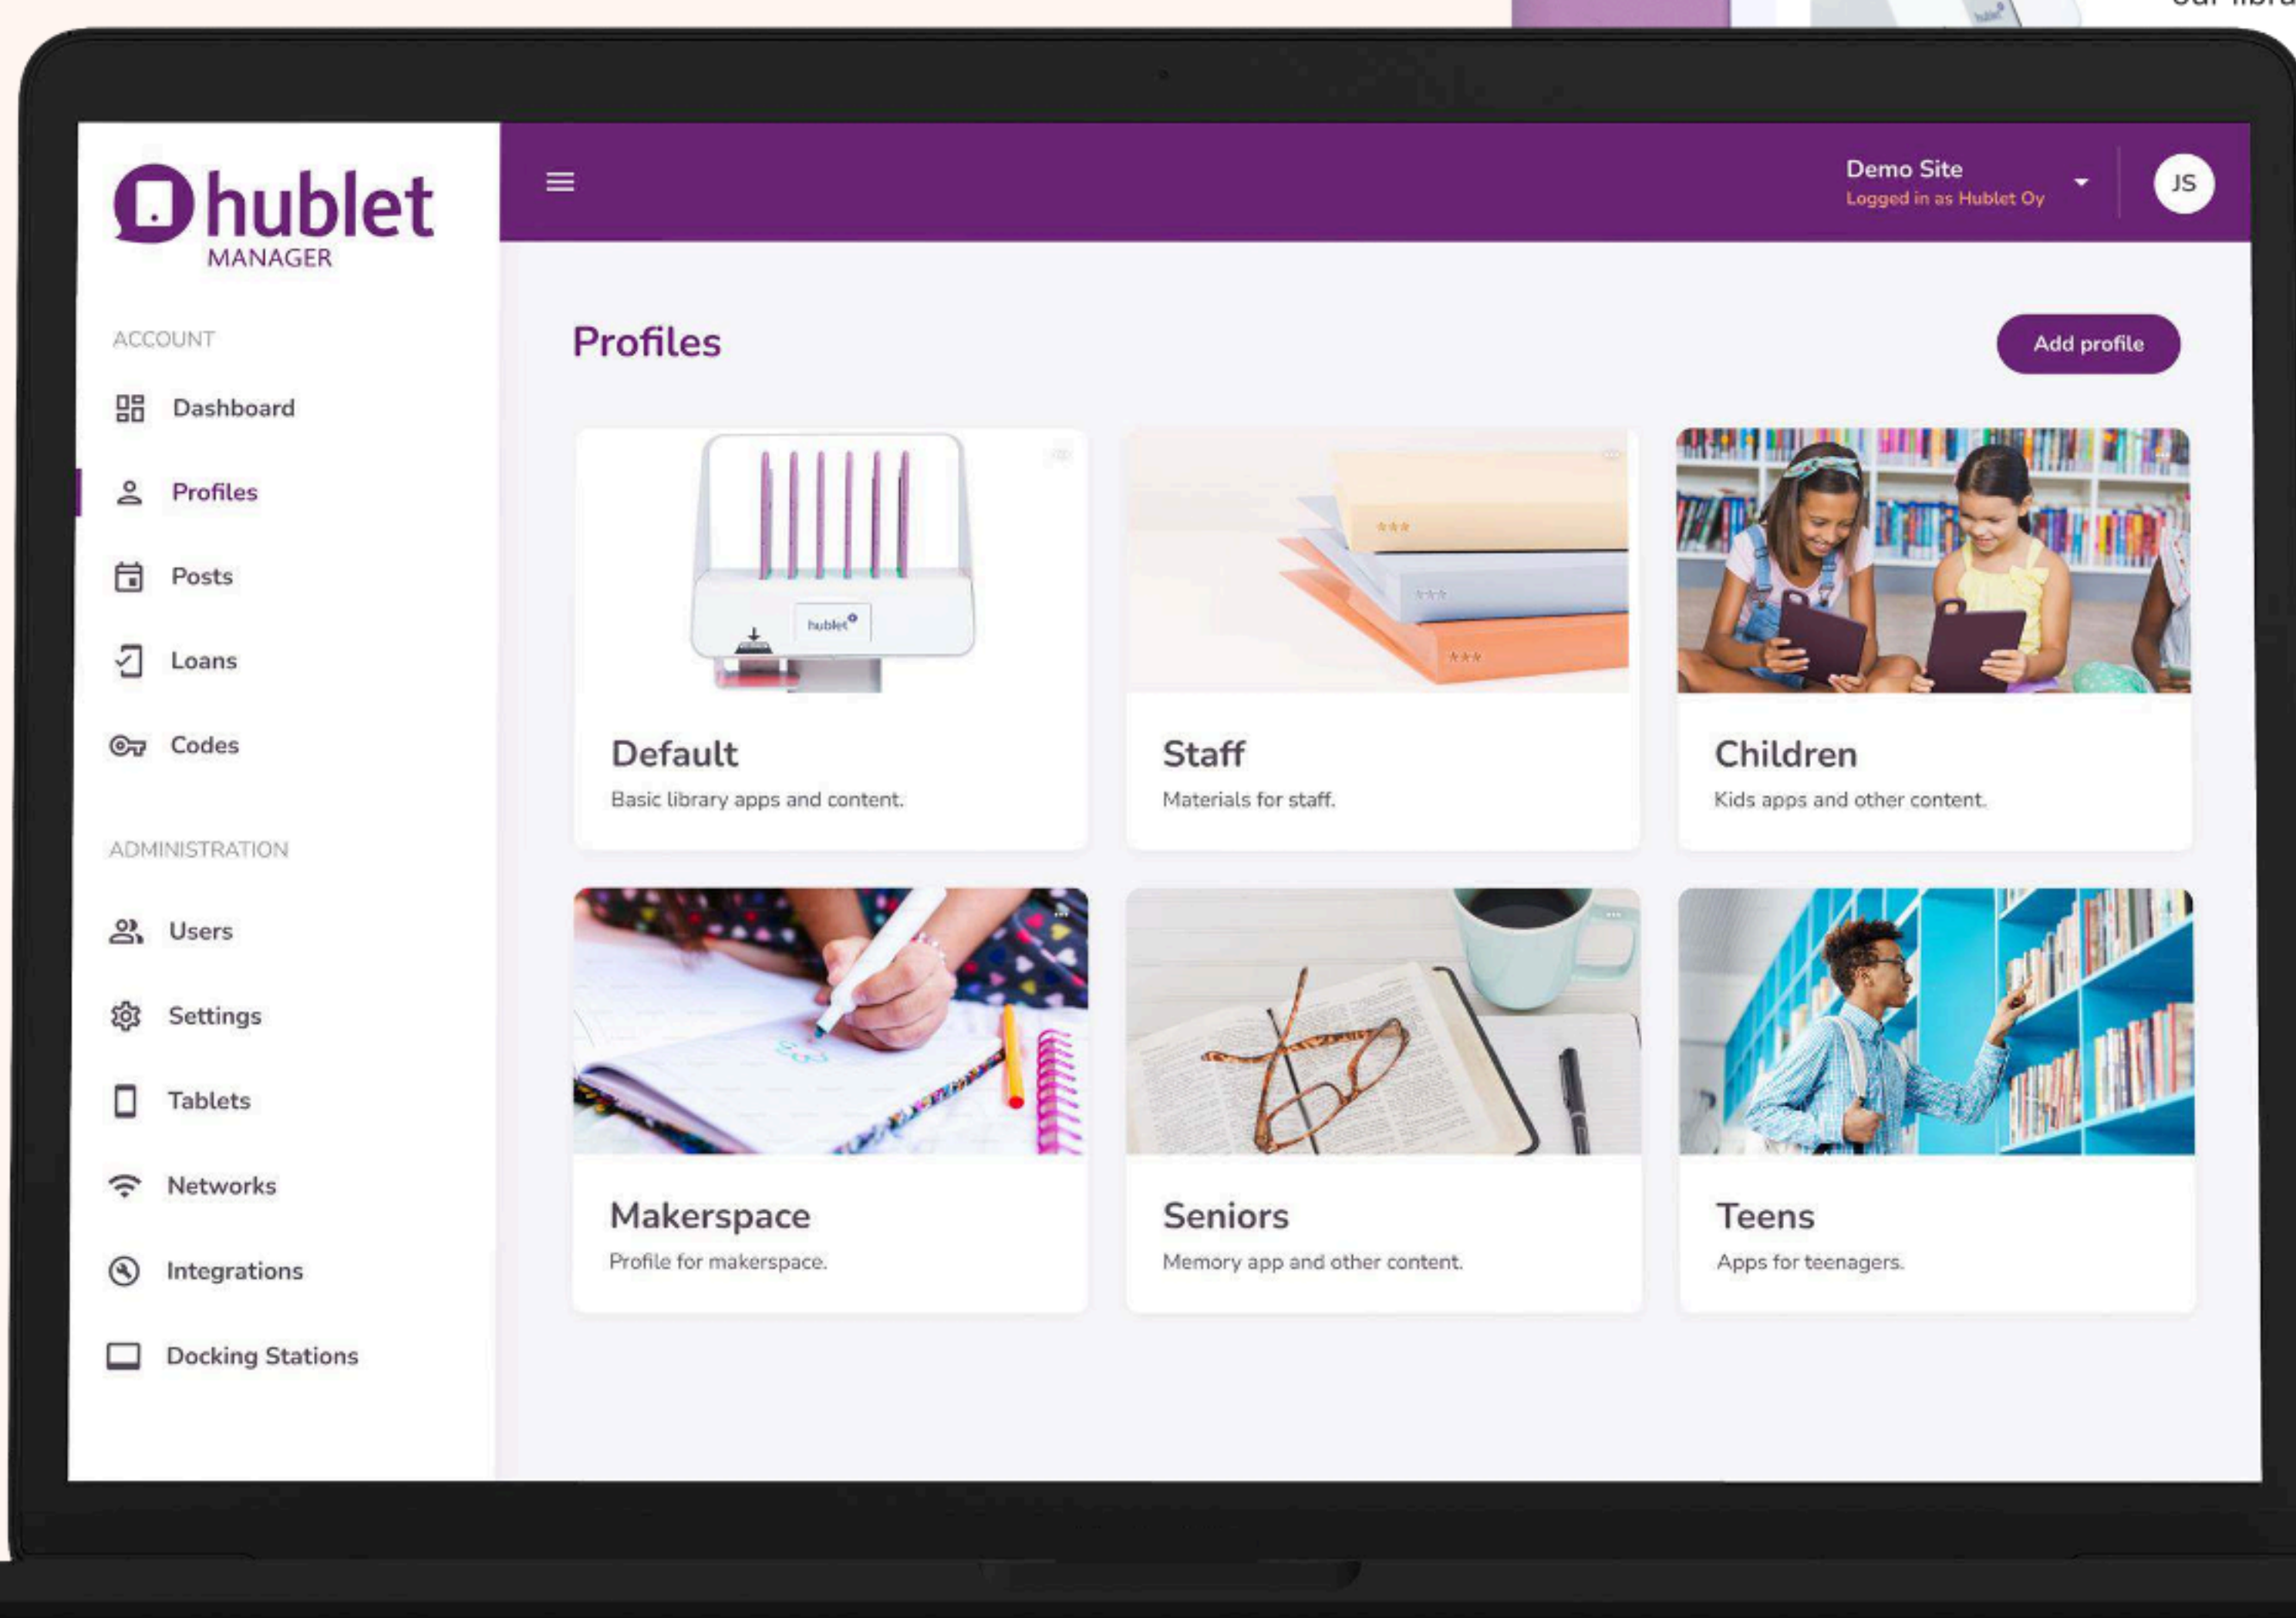

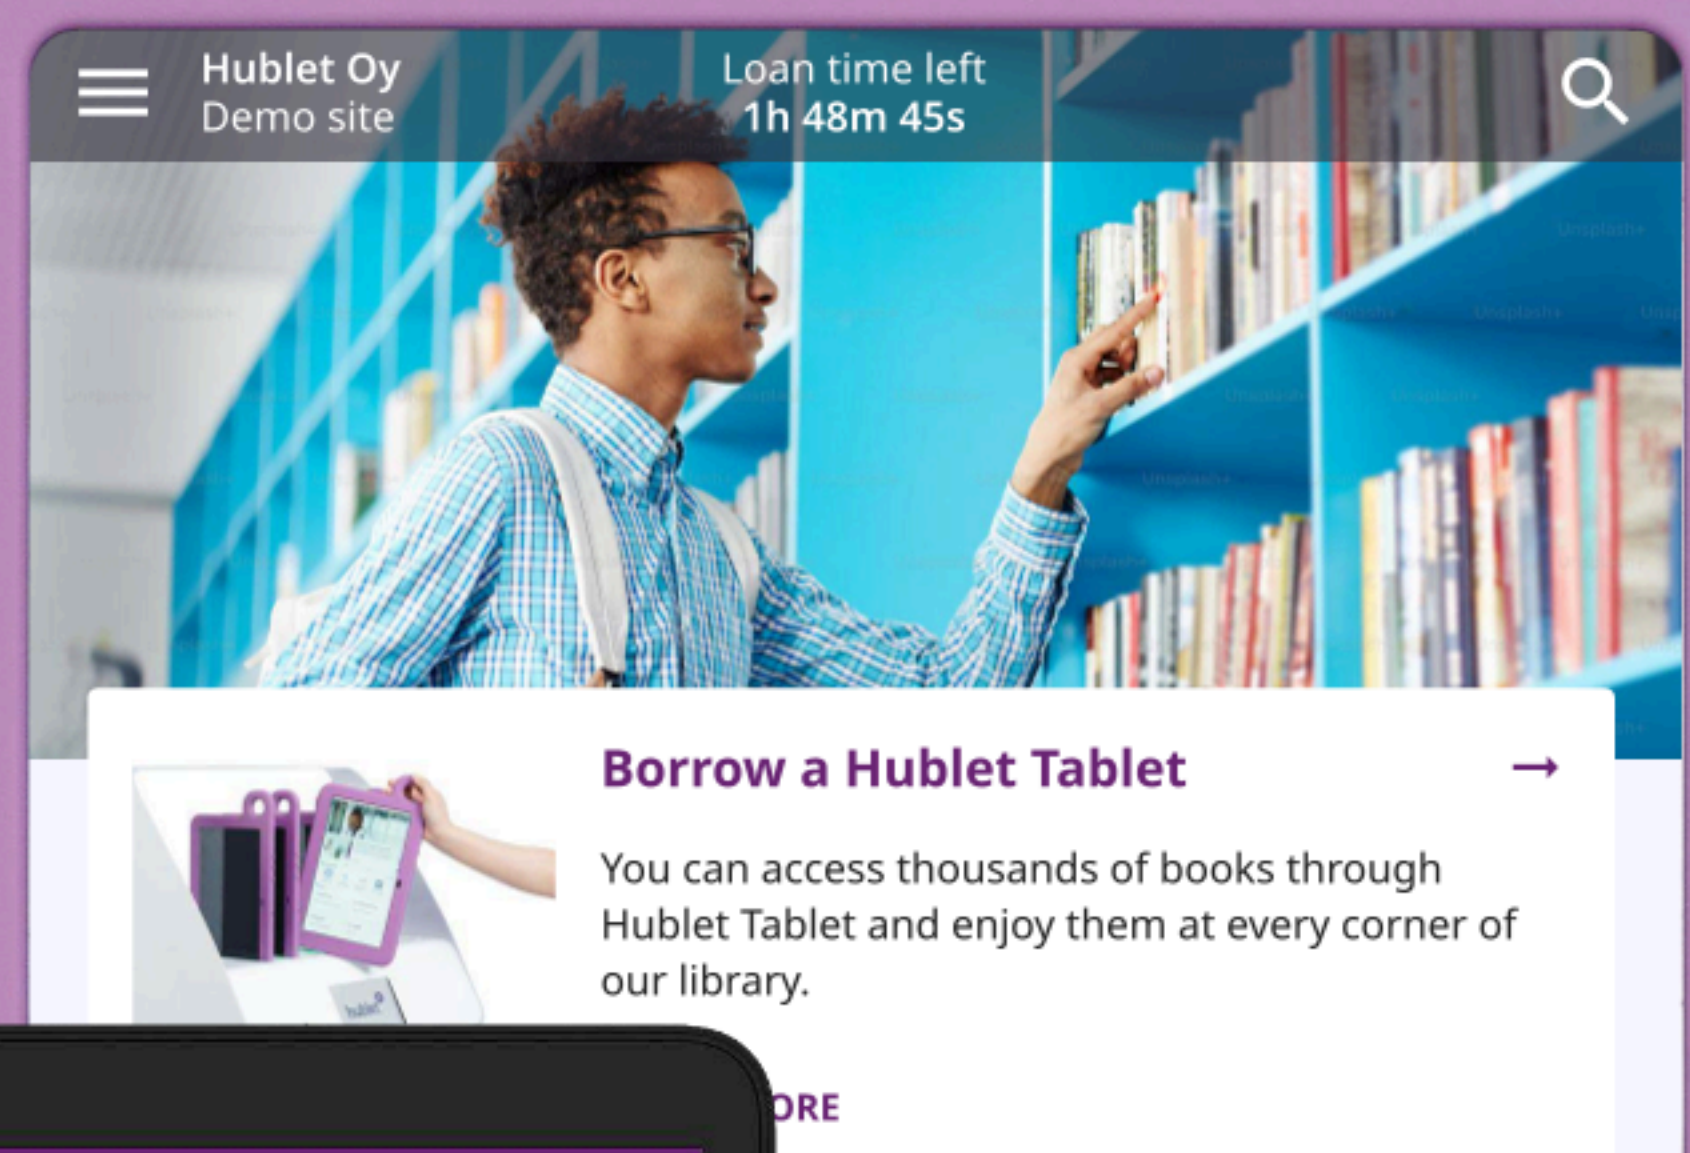

The Hublet User Interface simplifies navigation, empowering you to easily create meaningful profiles that cater to unique preferences, enhancing accessibility and promoting digital inclusion across diverse backgrounds and abilities.

# Hublet Solution

The Hublet Solution is a comprehensive SaaS platform. It streamlines digital content and device management for organisations, facilitating effortless content curation and sharing across multiple devices, while ensuring robust security features.

Hublet App – experience an intuitive user interface designed for tablets	3
Hublet Manager – manage tablets and content seamlessly	4

**Your Content, Your Way  
– on Shared Tablets,  
from Single SaaS  
Platform.**

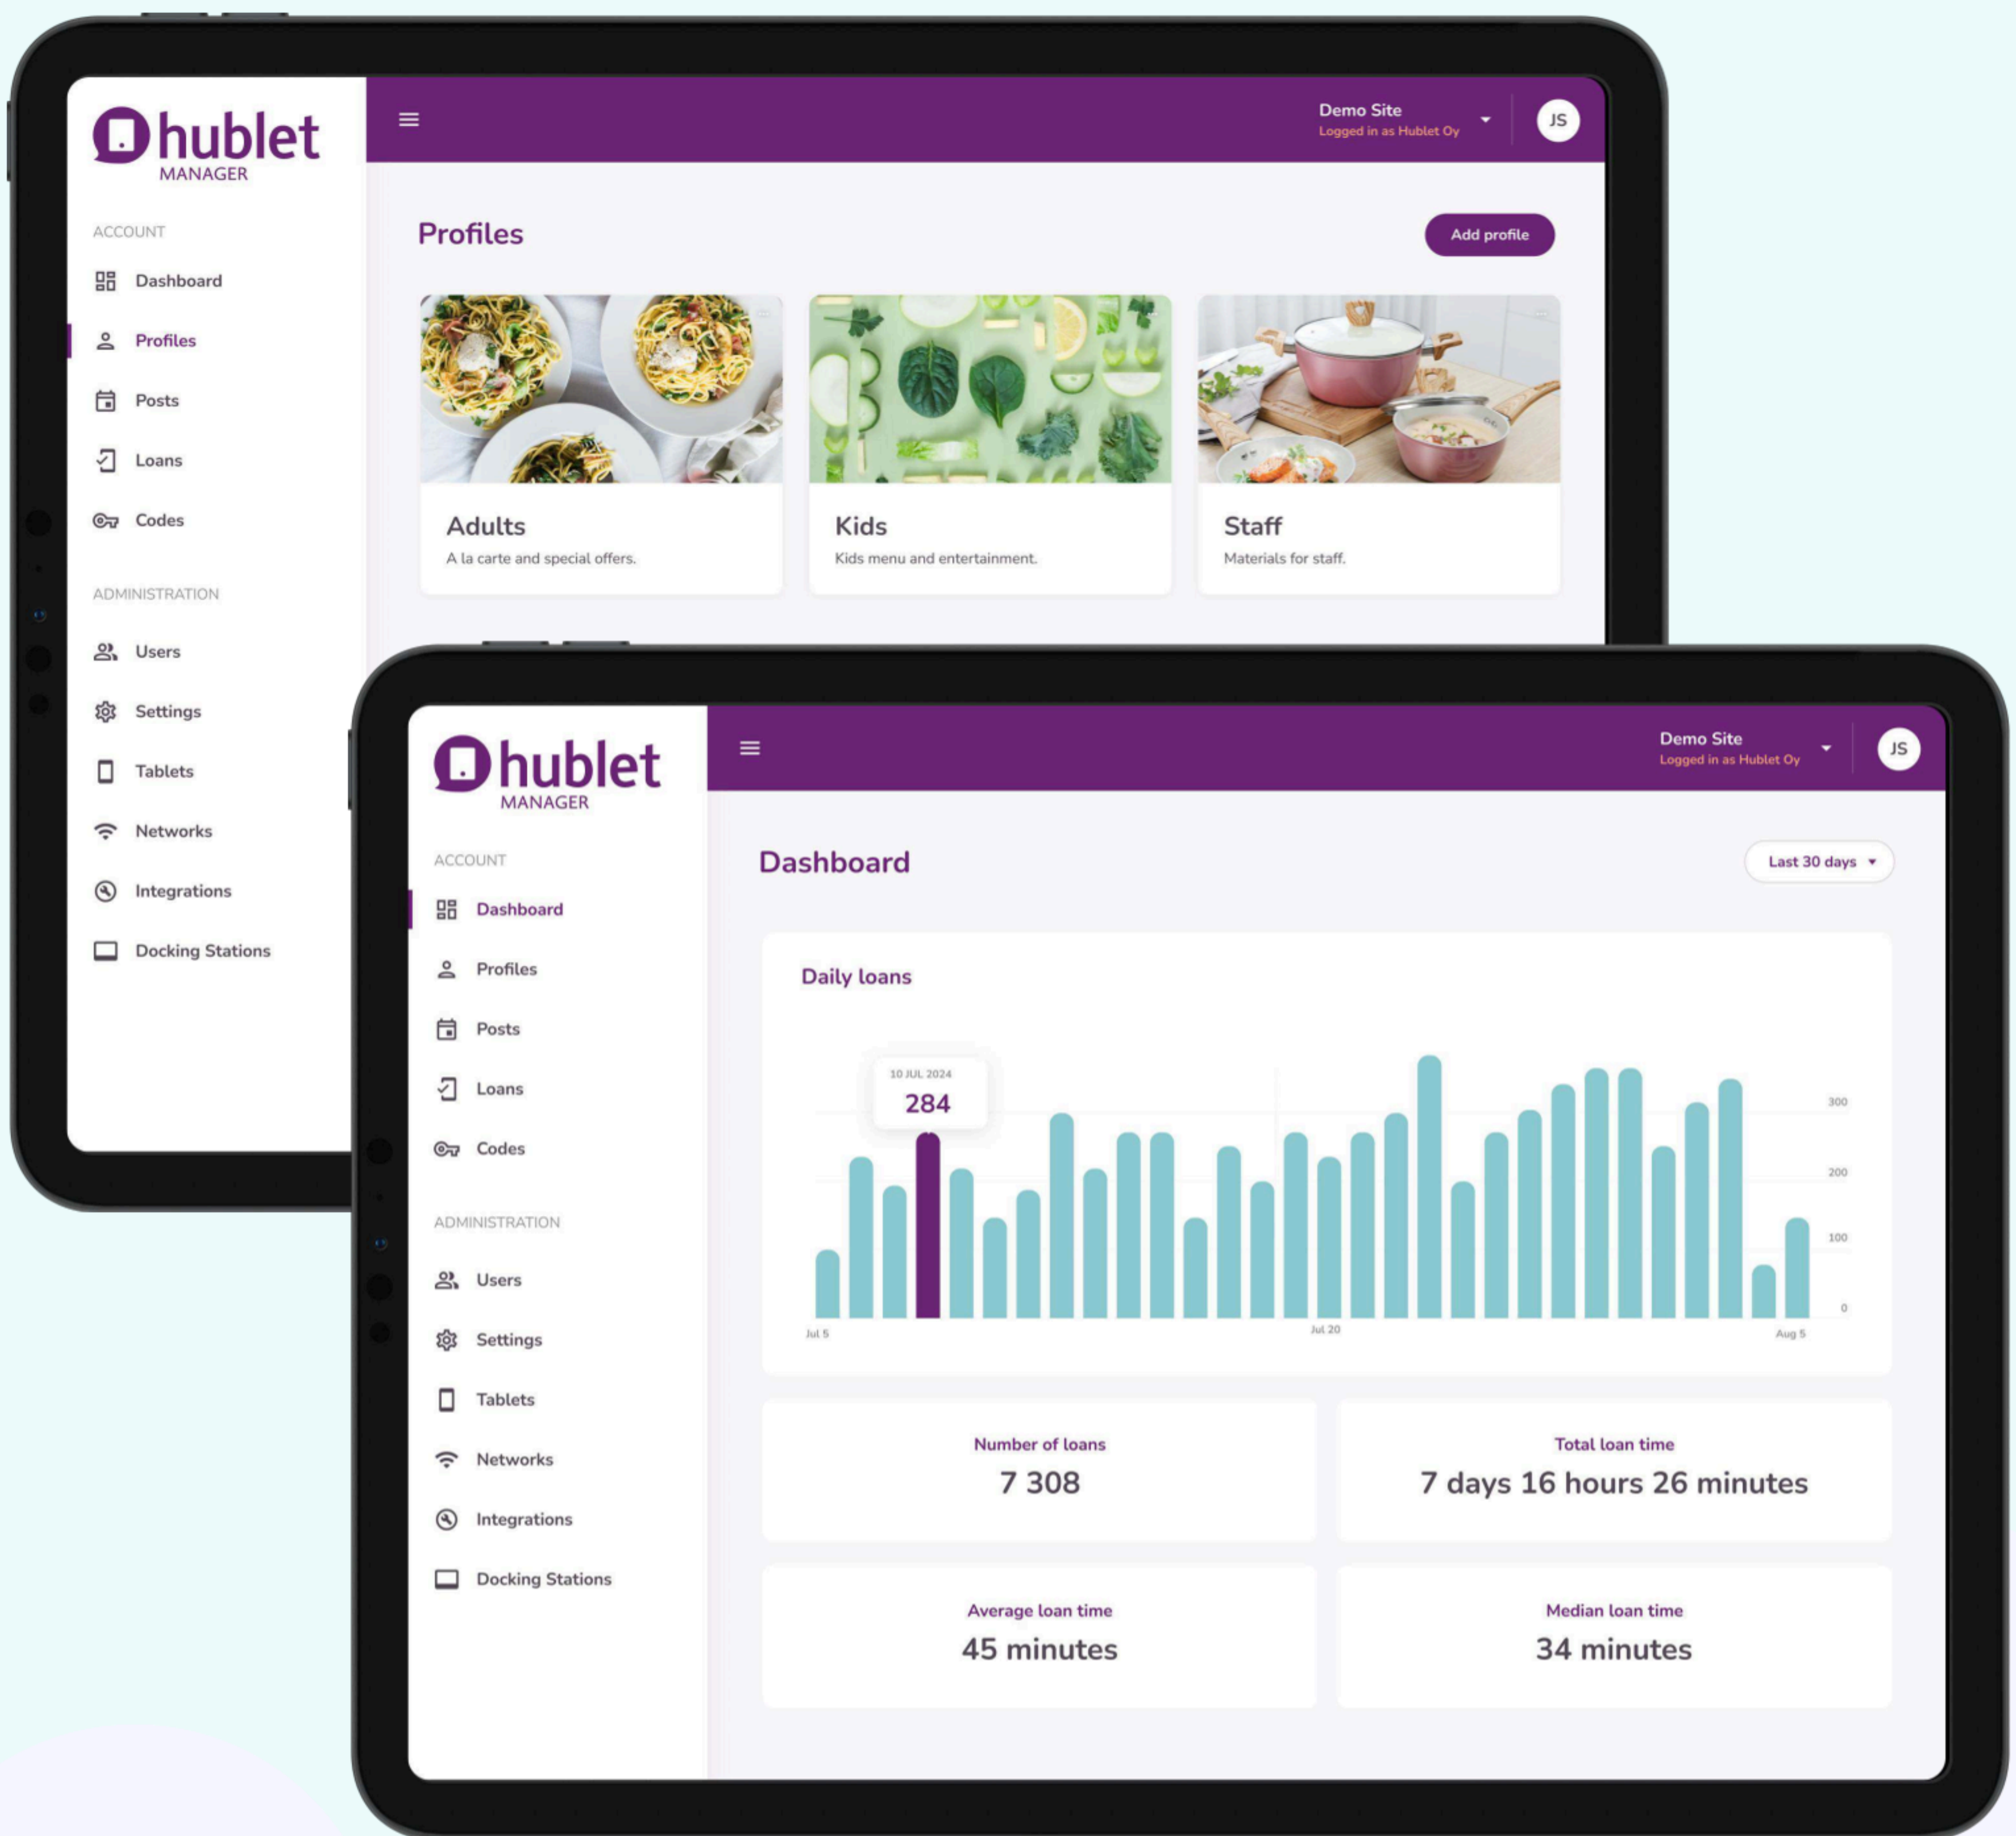

## Hublet App

The Hublet App is a mobile application designed to help you distribute your digital content with personalised Hublet Profiles on shared devices easily.

- ✓ Enjoy a user-friendly design that makes digital content accessible to everyone.
- ✓ Navigate easily with our intuitive and responsive design.
- ✓ Read comfortably with high contrast for better visibility.
- ✓ Share personalised content with multiple user profiles on the same device.
- ✓ Keep your users data safe with automatic wiping after each use.
- ✓ Connect only to authorised networks for secure operation.
- ✓ Protect your devices from unauthorised access and data alteration.

# Hublet Manager

Hublet Manager, a browser-based platform, is a centralised tool with efficient content, device, and integration management capabilities.

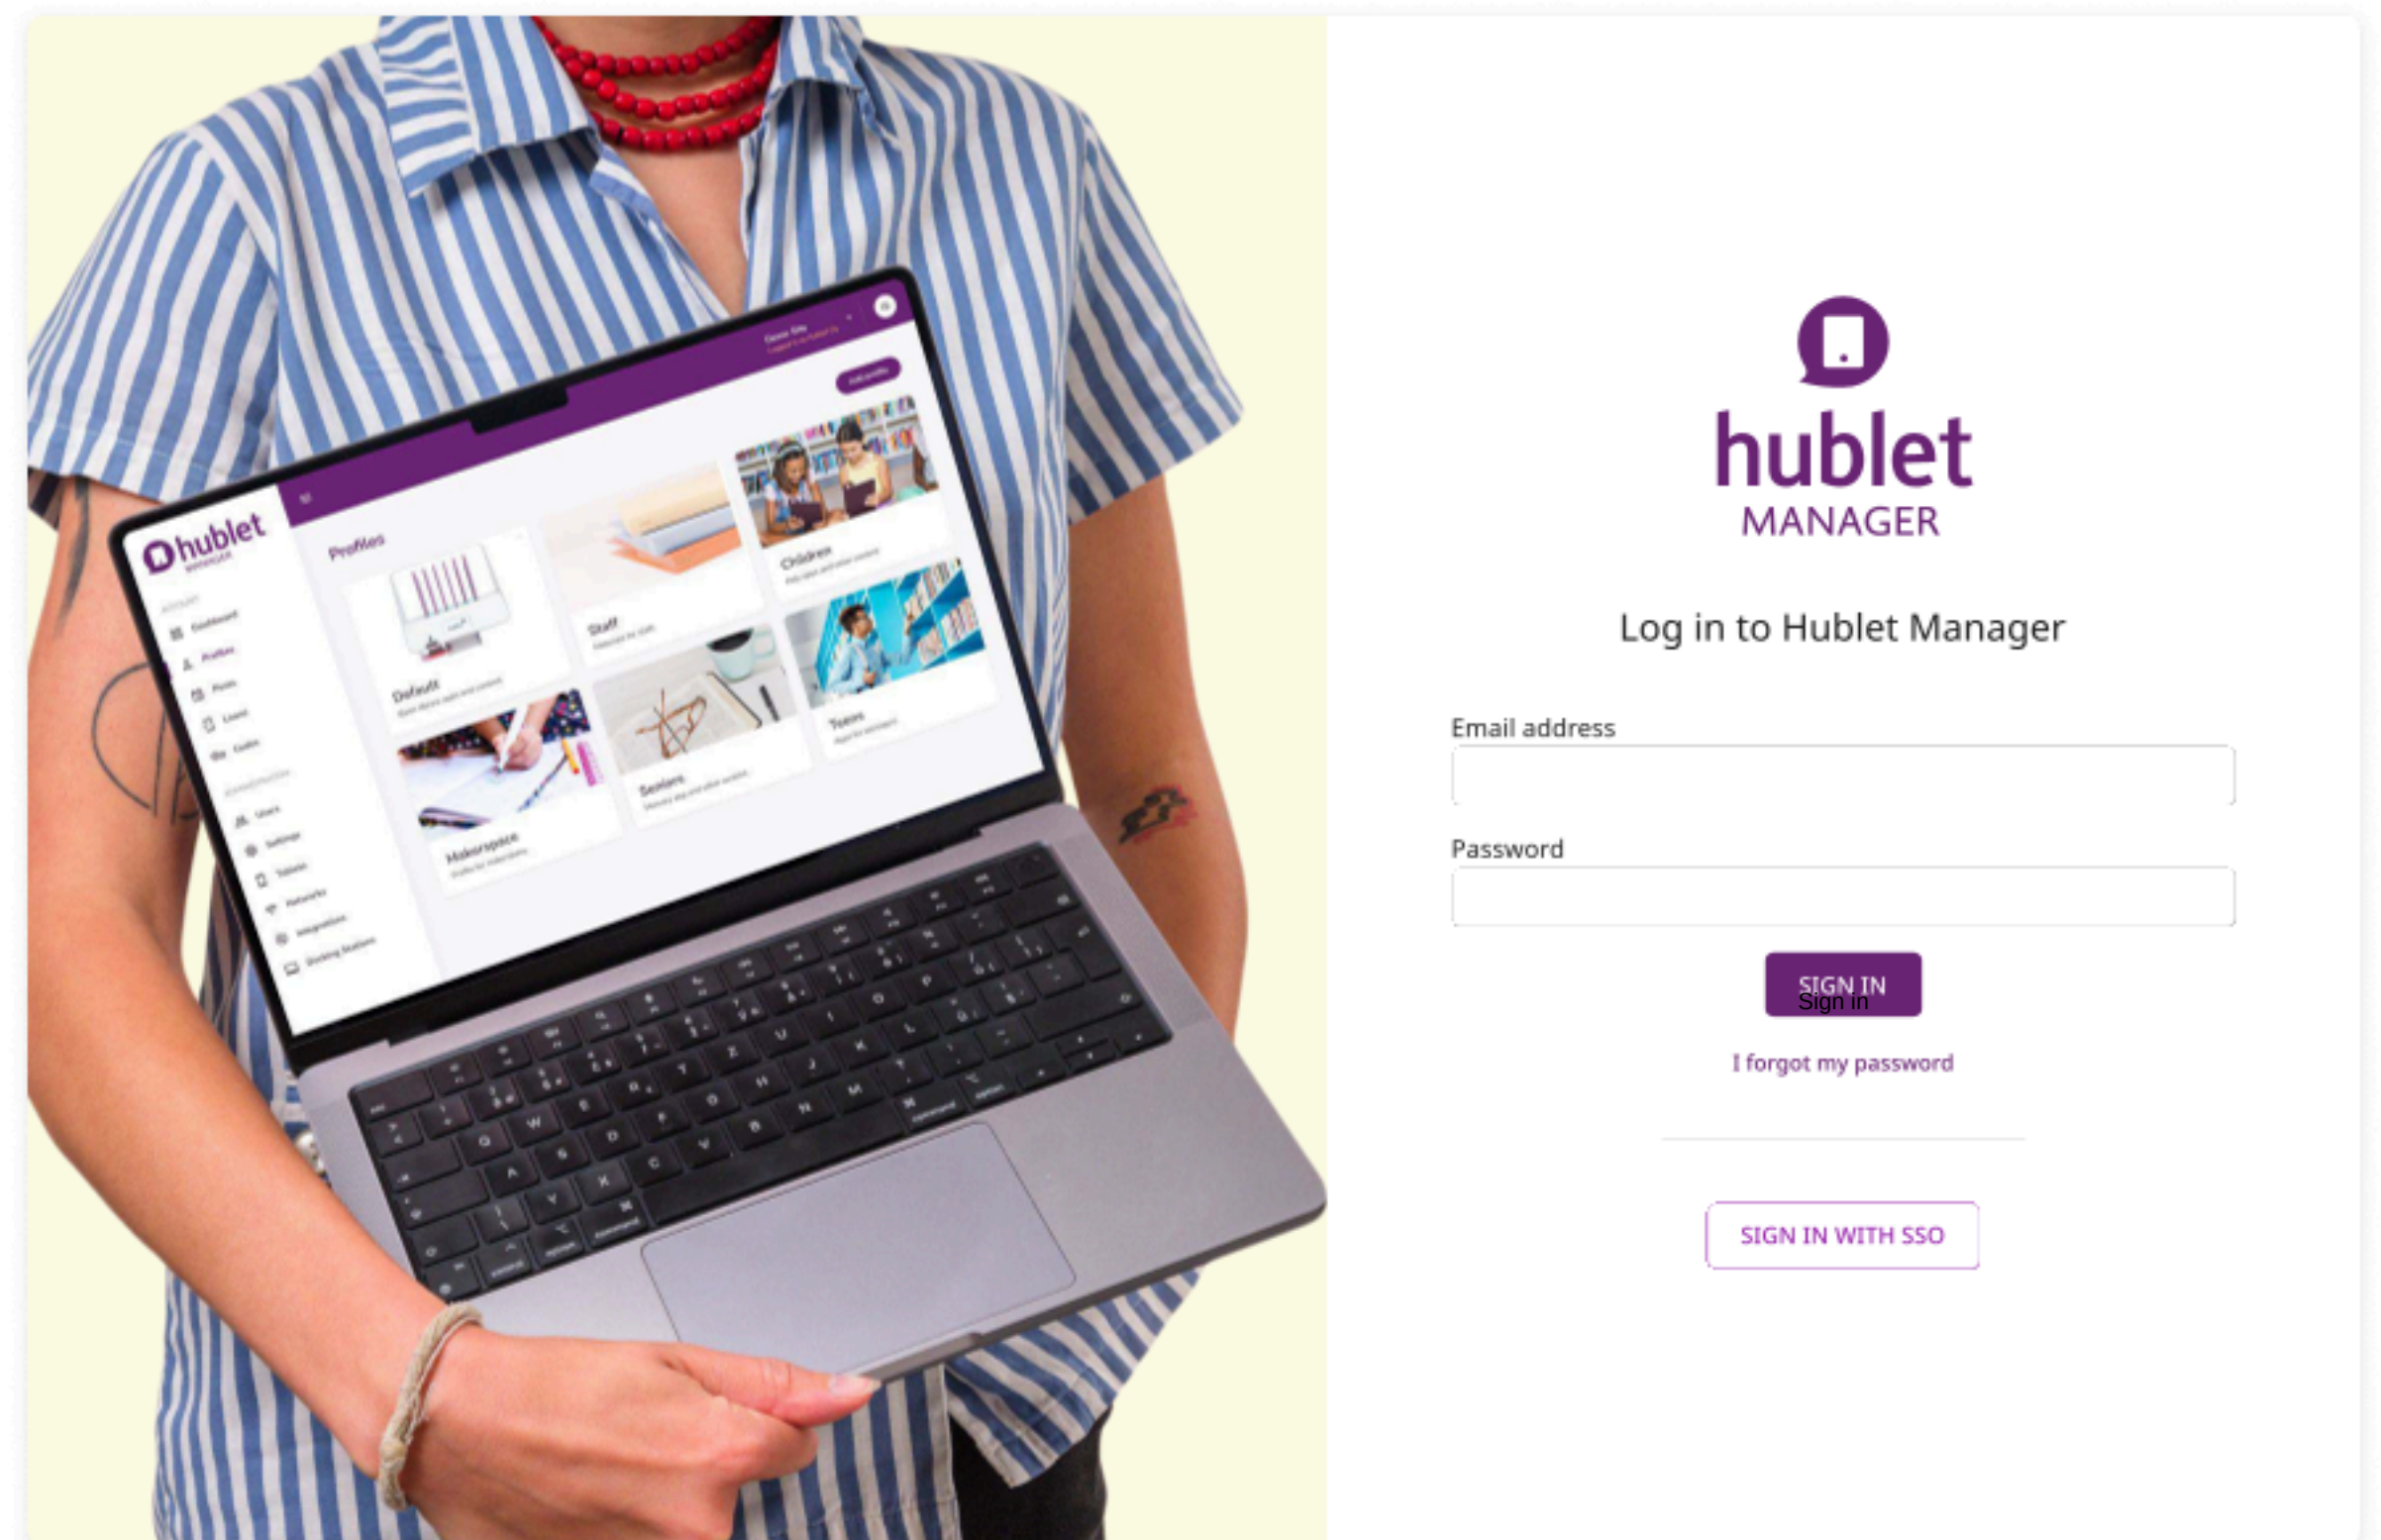

- ✓ Benefit from cloud storage and automatic software updates.
- ✓ Manage content, devices, and integrations comprehensively.
- ✓ Access your account across multiple devices via a browser.
- ✓ Use simultaneously with multiple users in various languages from different locations.
- ✓ Get an instant view of your devices' performance through statistics.
- ✓ Access helpful documentation and submit support tickets anytime through our Help Center.

# At a Glance

## Simple steps for using Hublet Manager

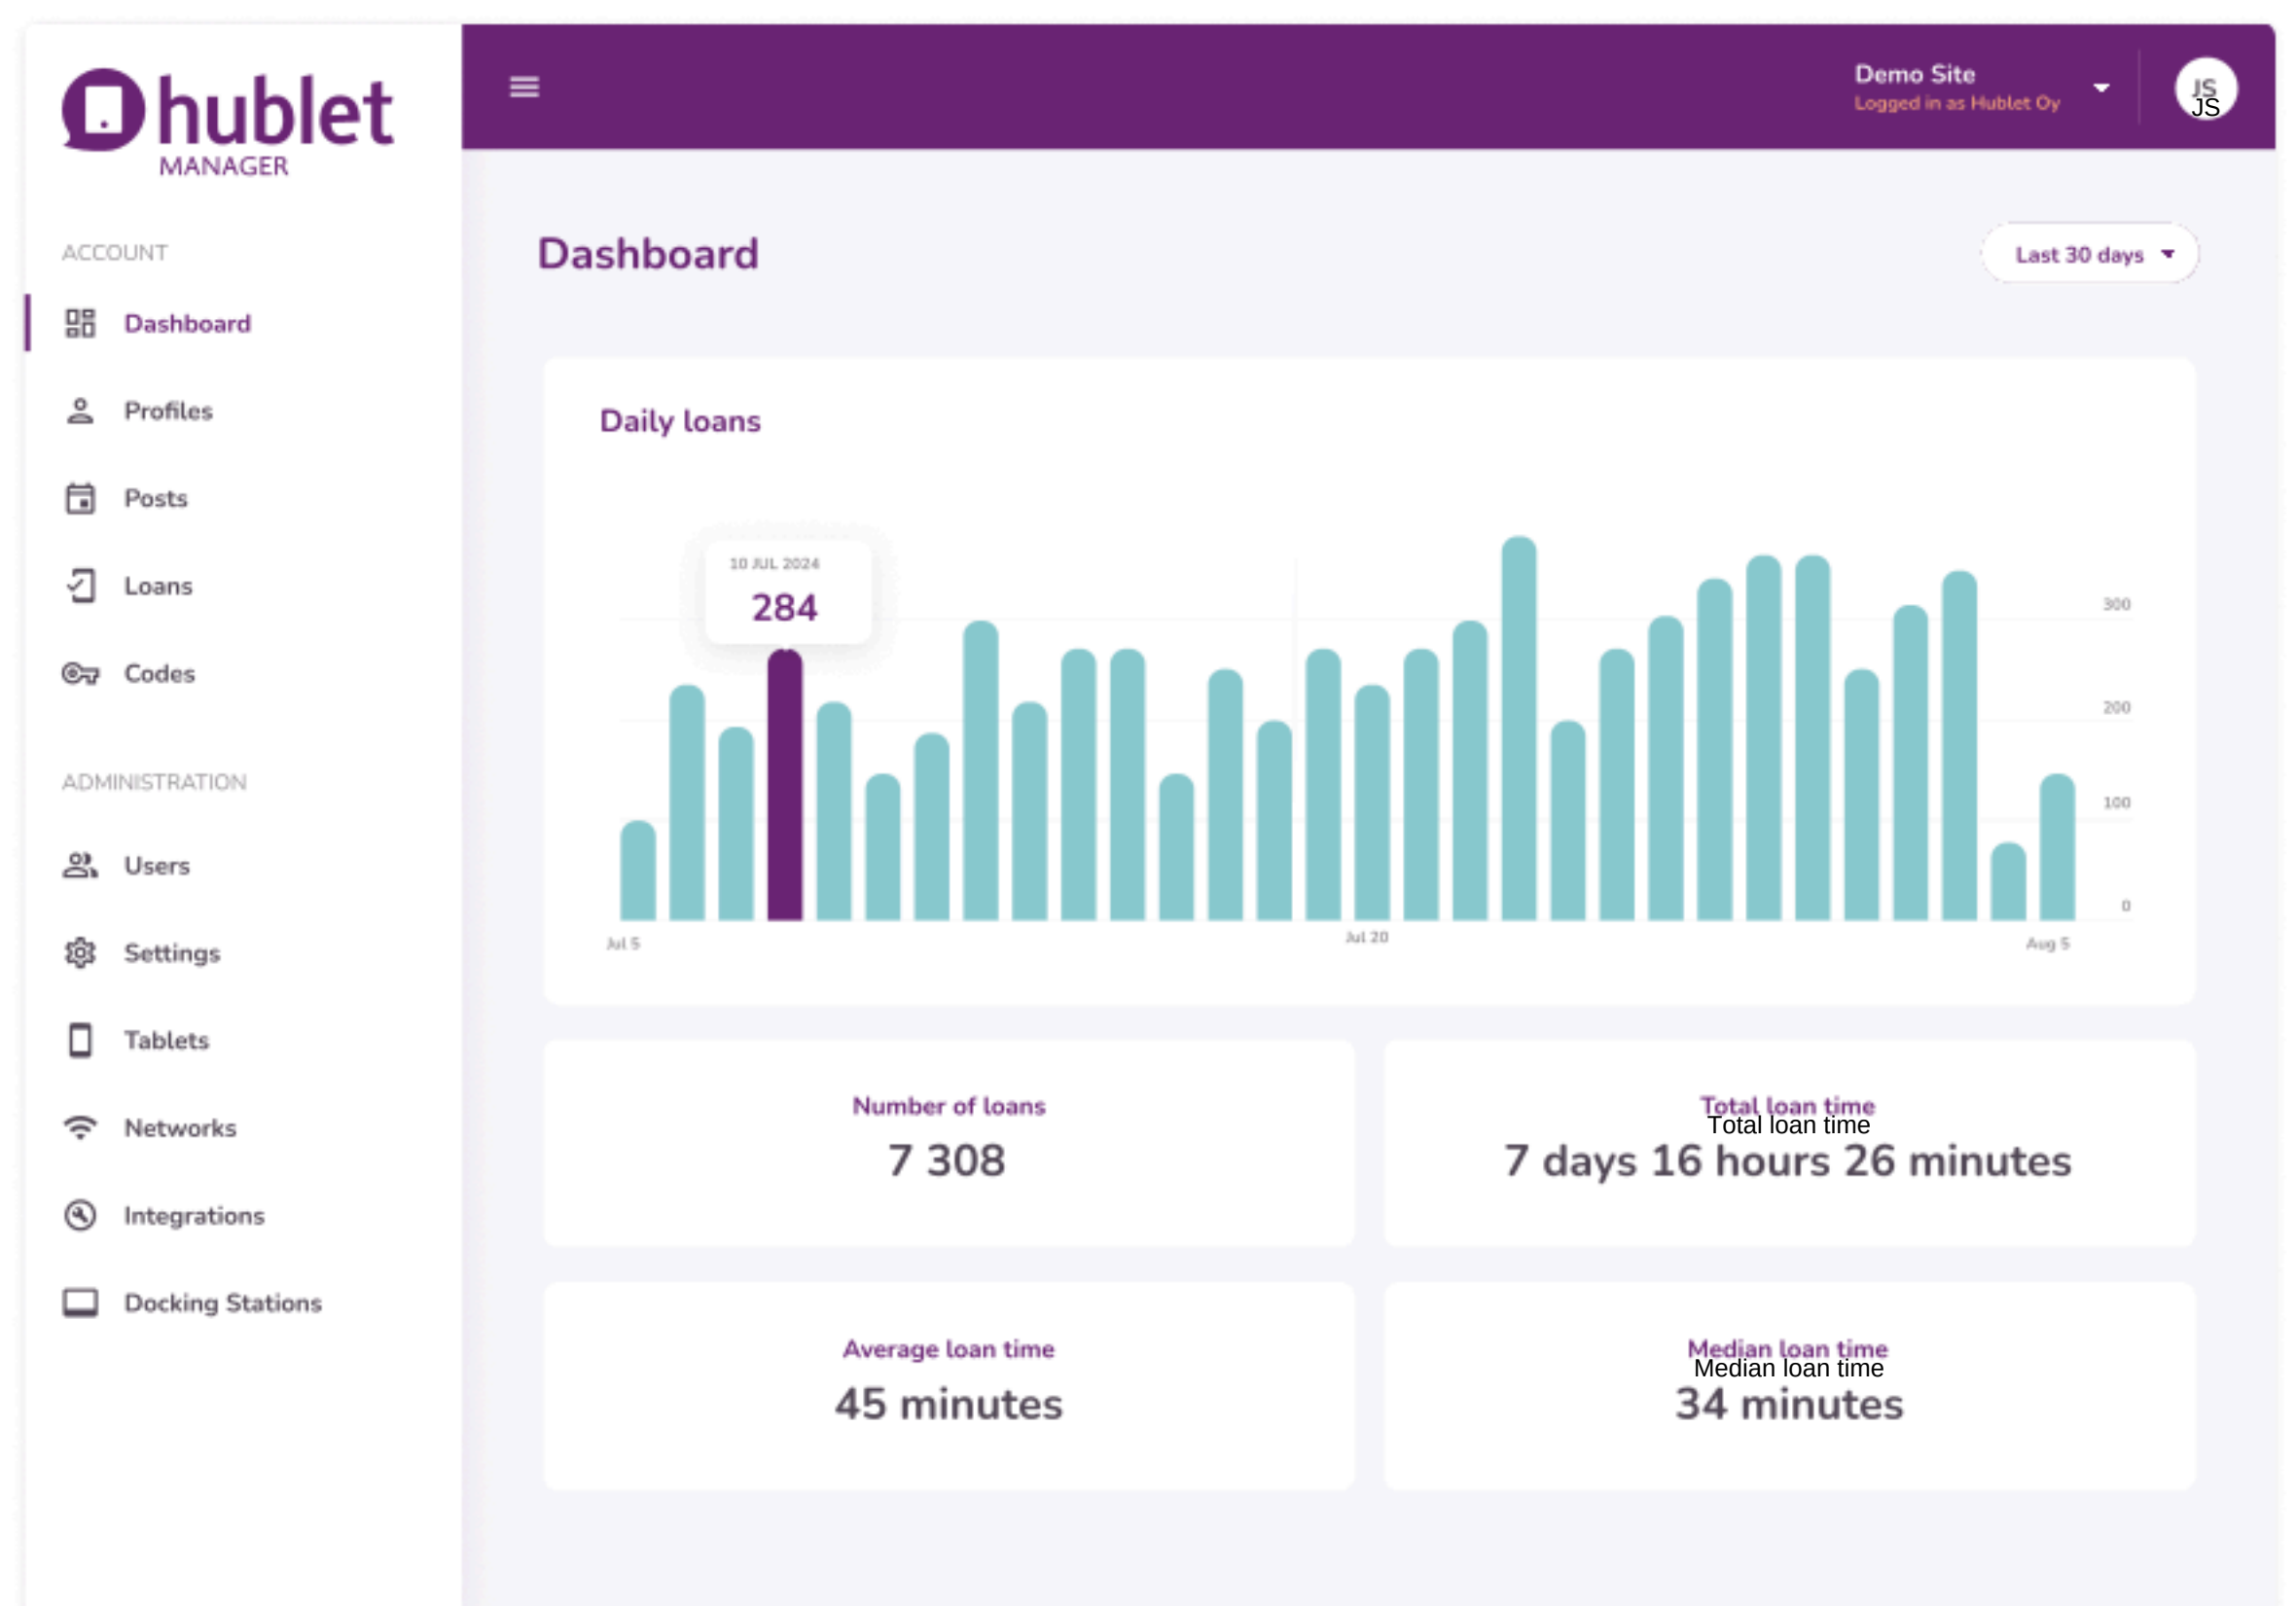

### Log in

Log in from a phone, tablet, or computer browser.

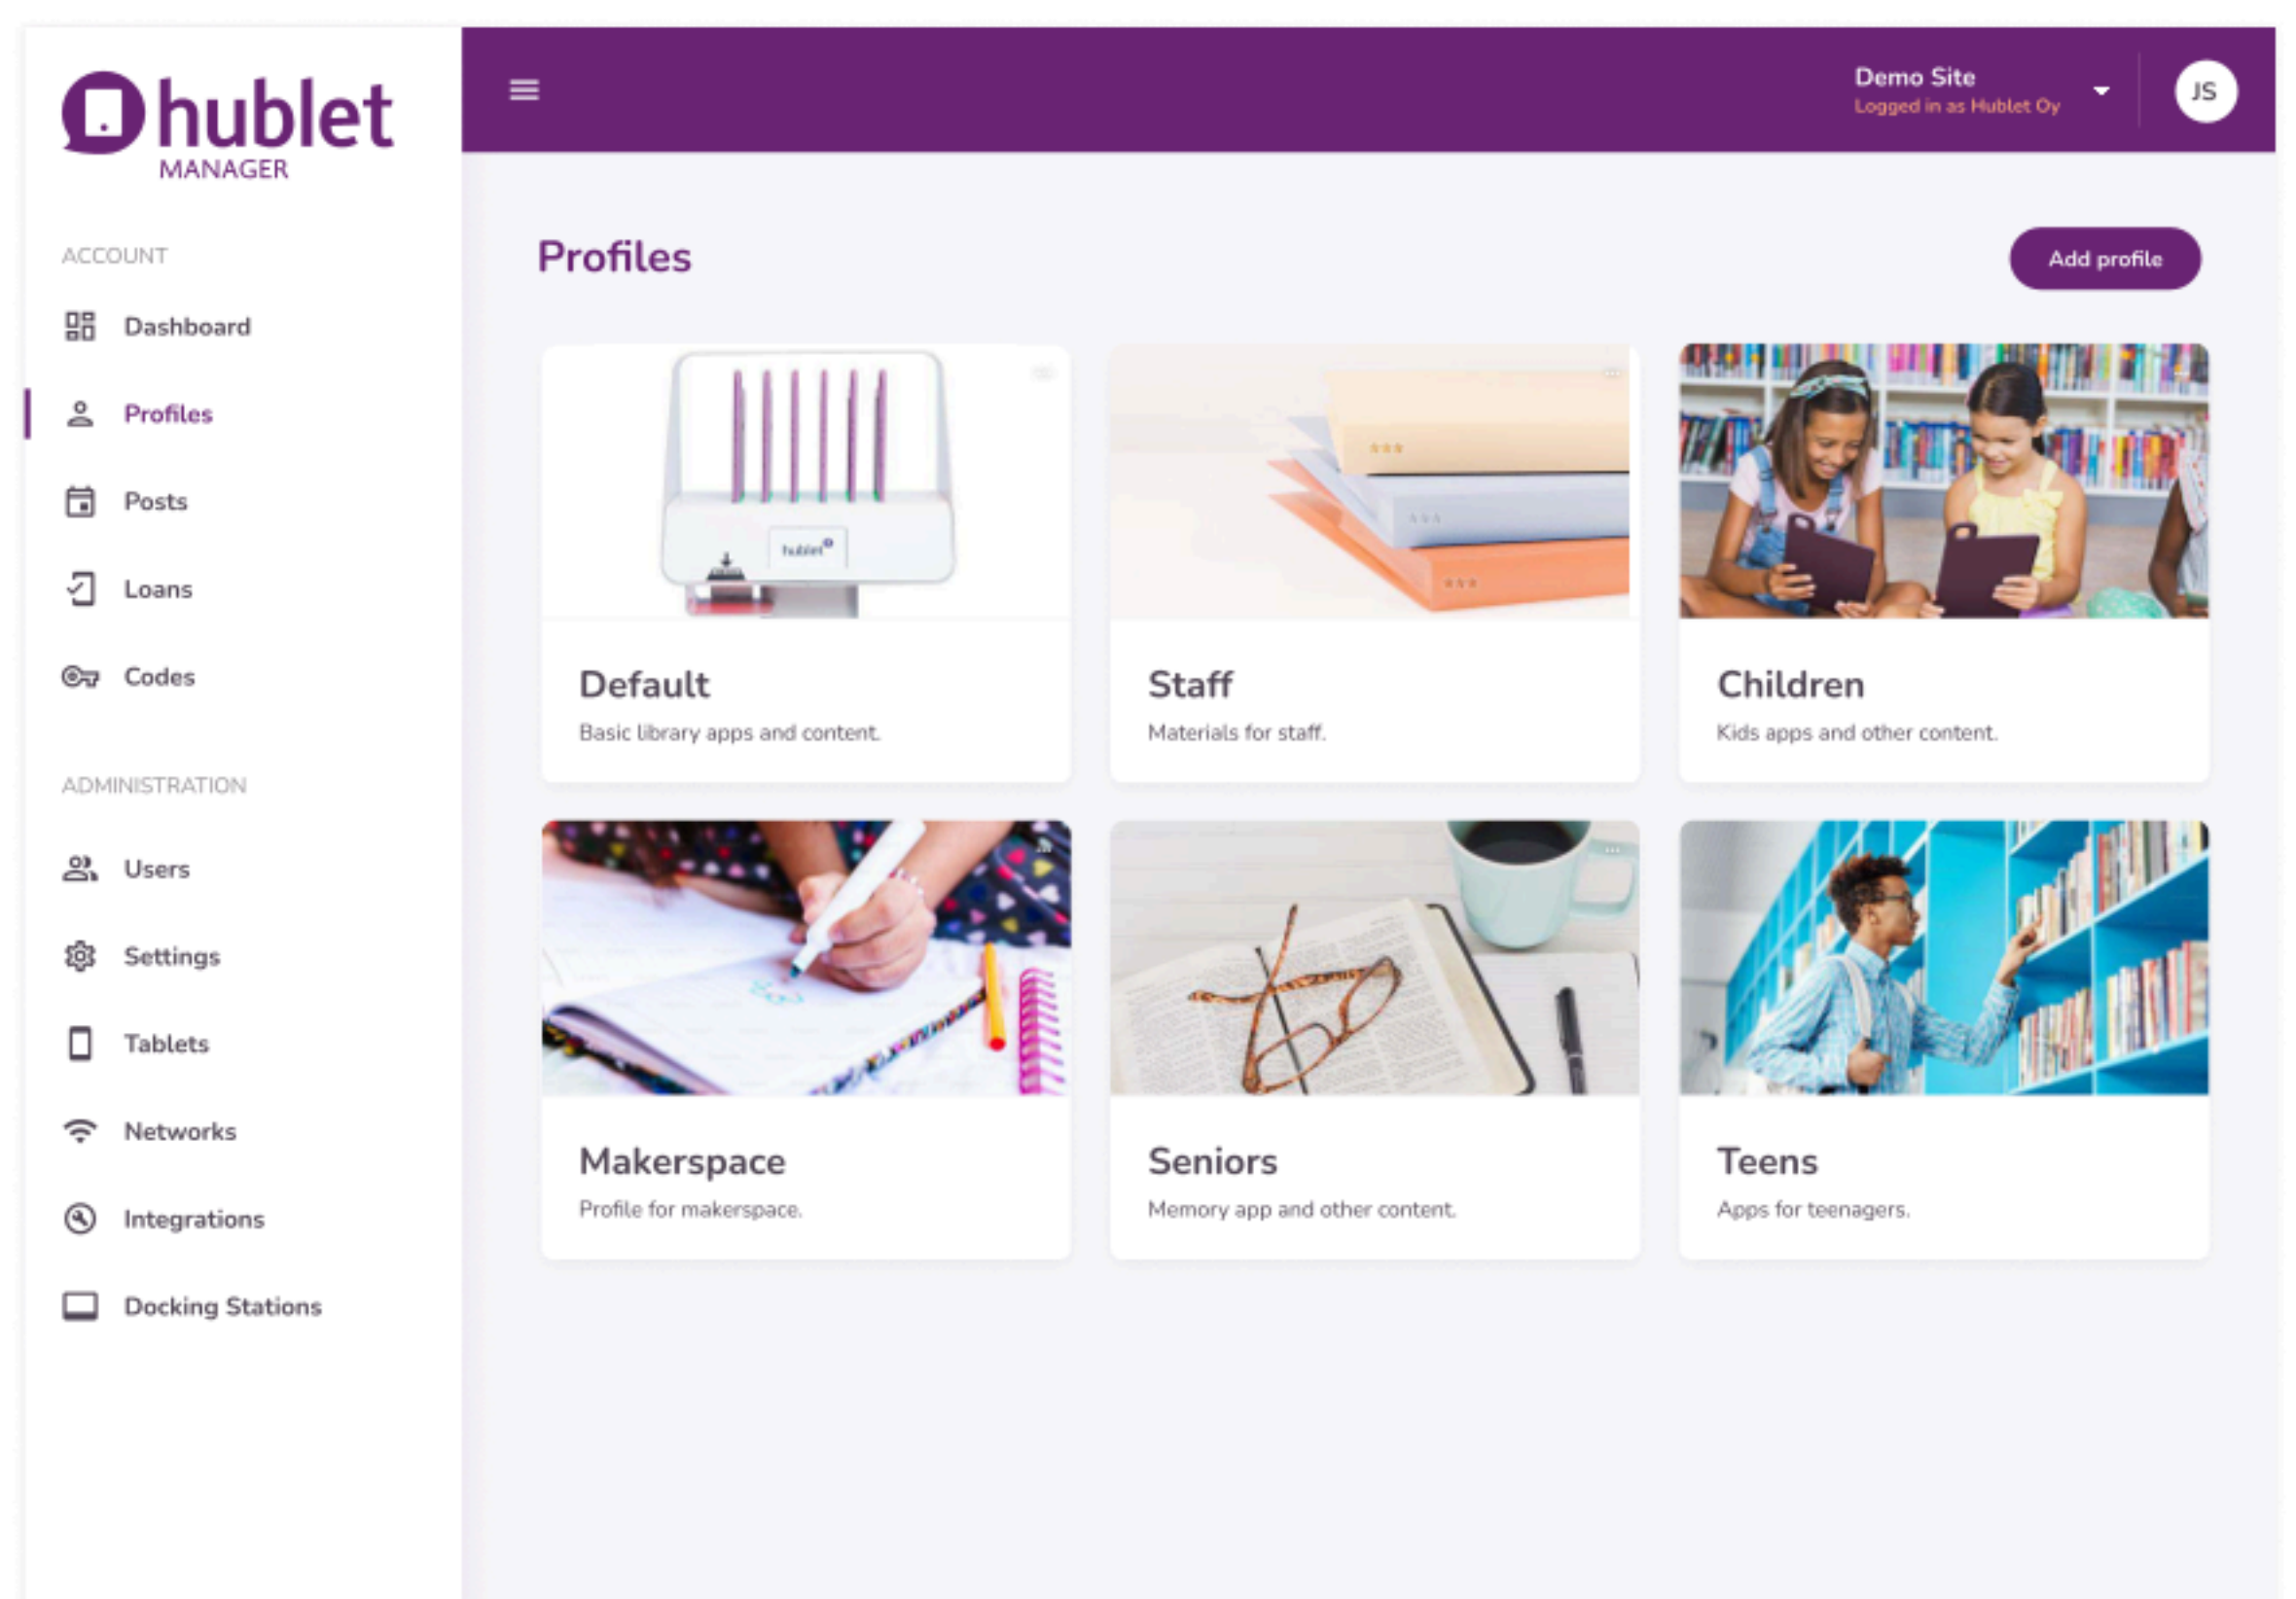

### Dashboard

- Benefit from a user-friendly dashboard with intuitive navigation.
- Get a quick overview of your device performance.
- Access digital profiles, device information, settings, and Help Center instantly.
- Conveniently switch between different UI languages.

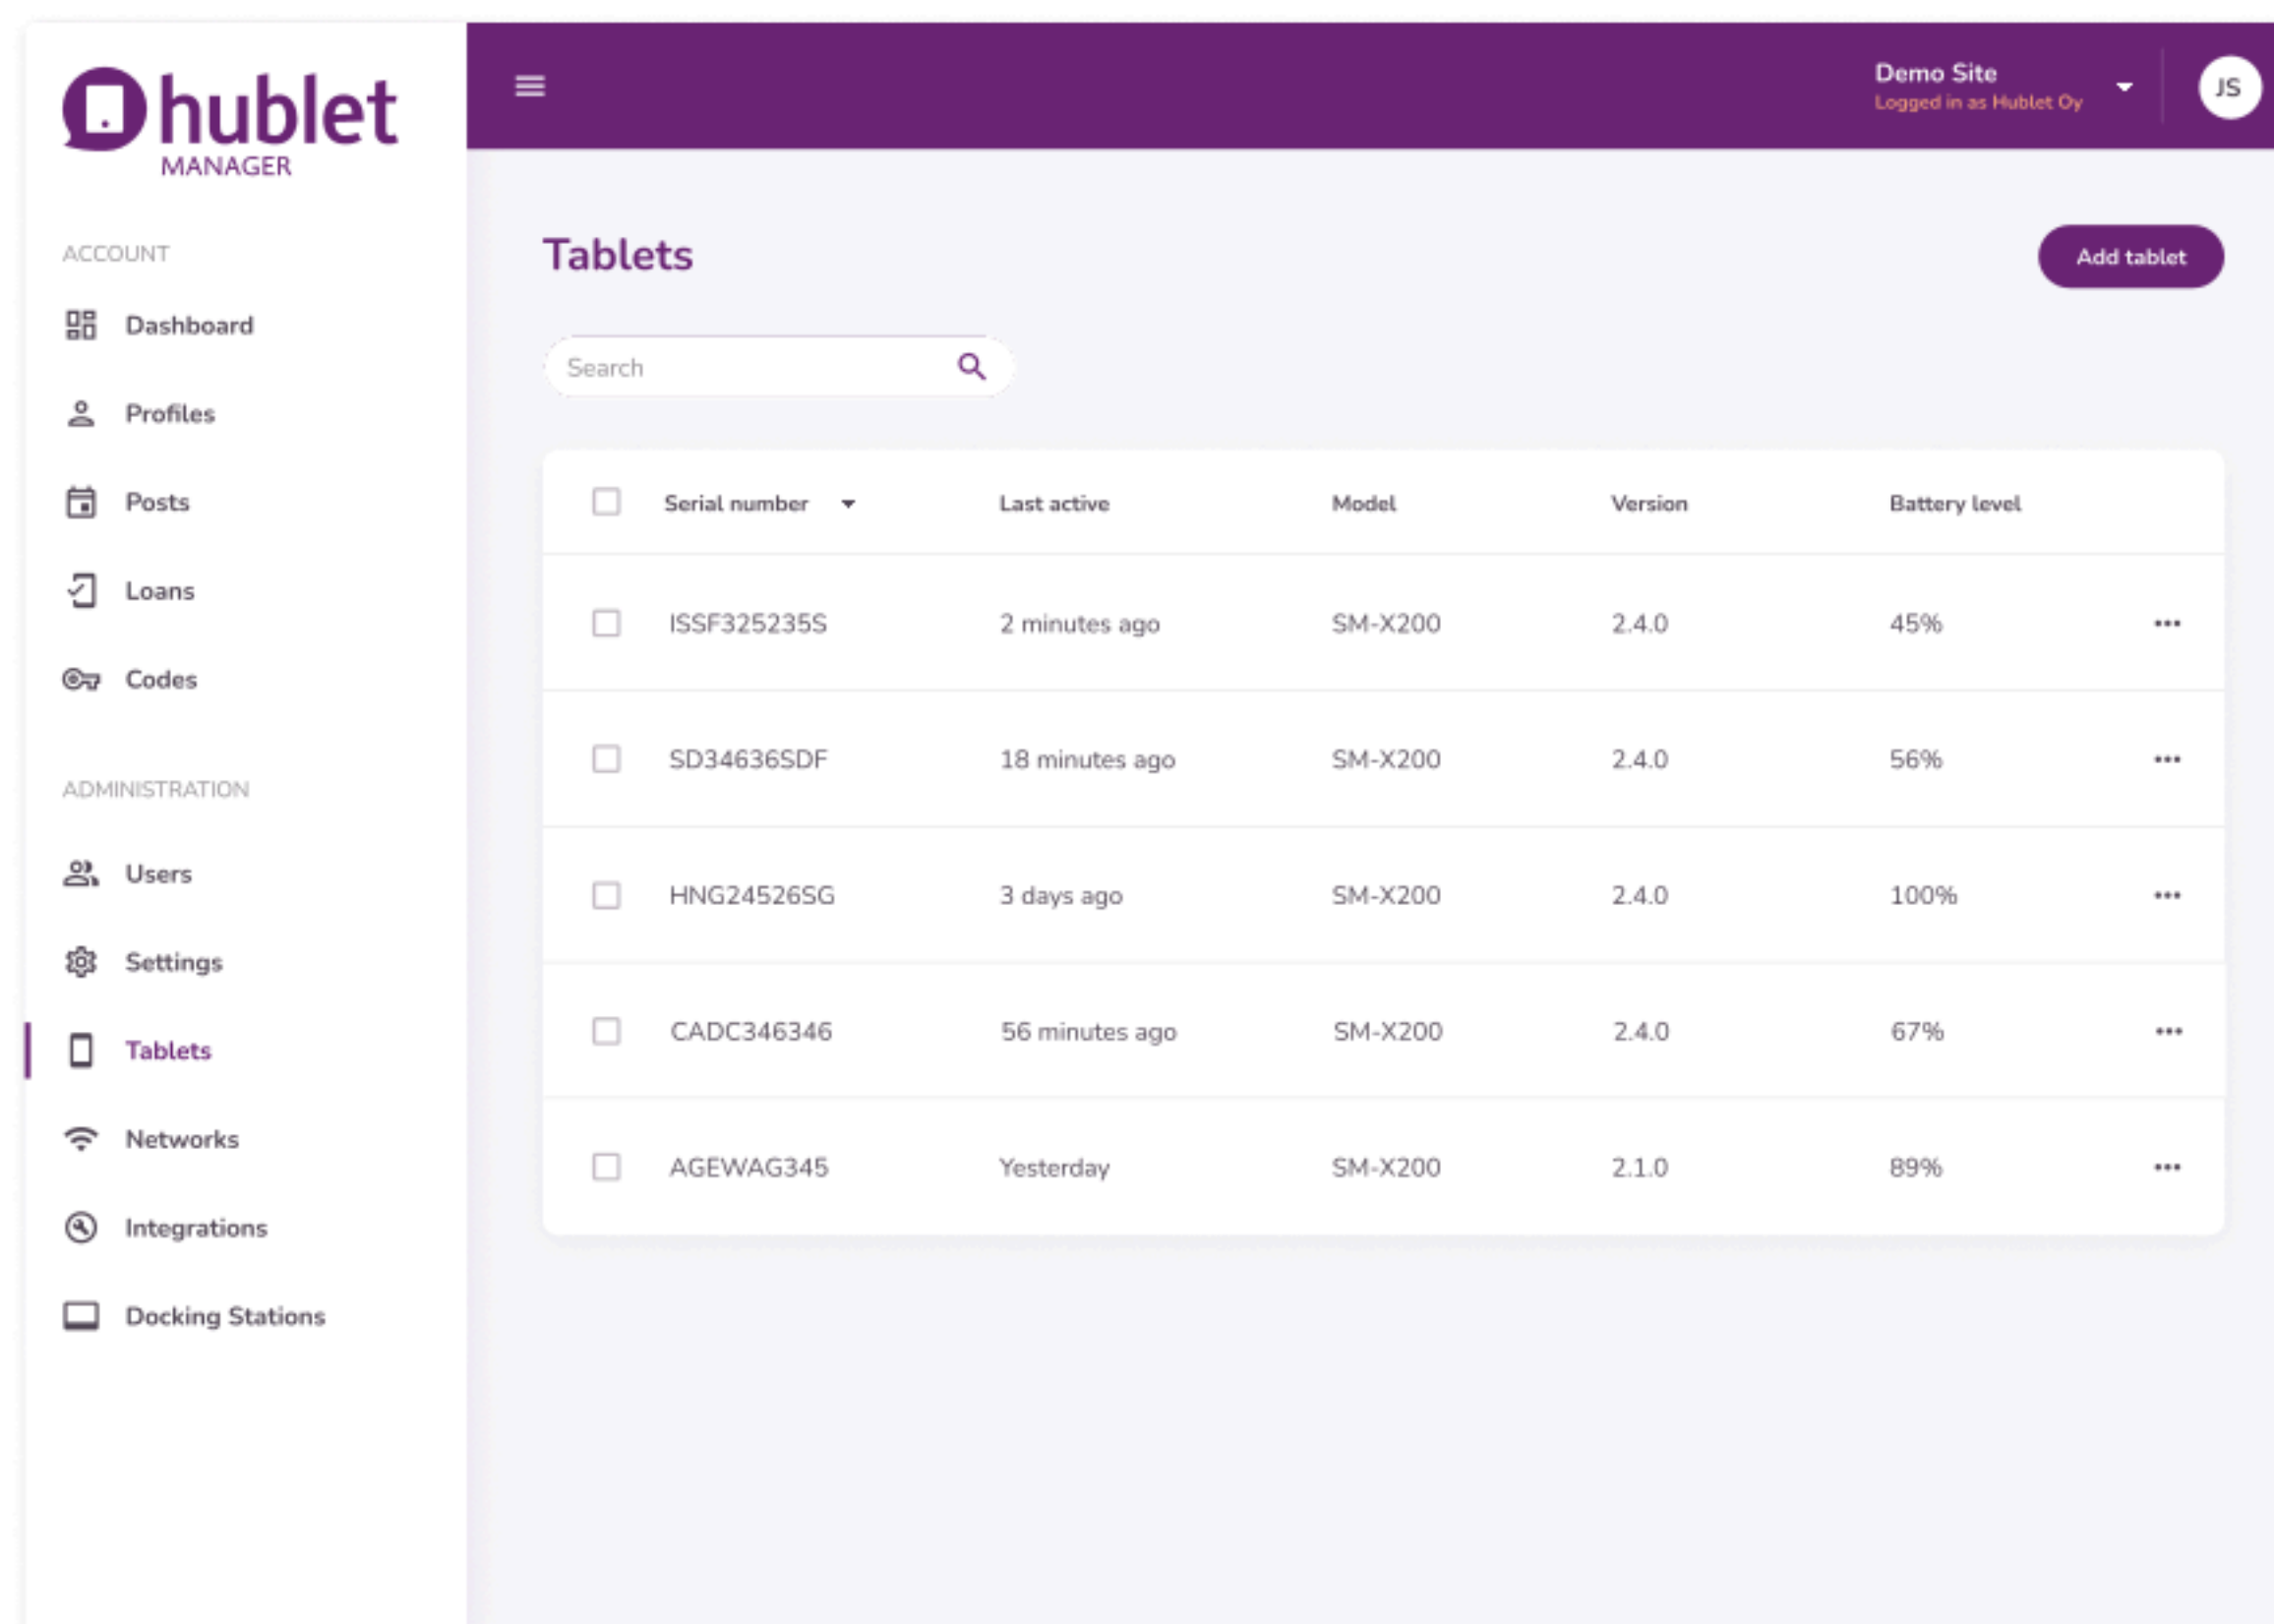

### Hublet Manager for Content Management

- Create, curate, update, and manage Hublet profiles.
- Access a wide range of downloadable apps from the Play Store.
- Add website links, resource files, documents, images, and more.
- Create engaging posts to present your marketing messages to users.
- Gain insights through loan statistics to understand the popularity of your profiles.

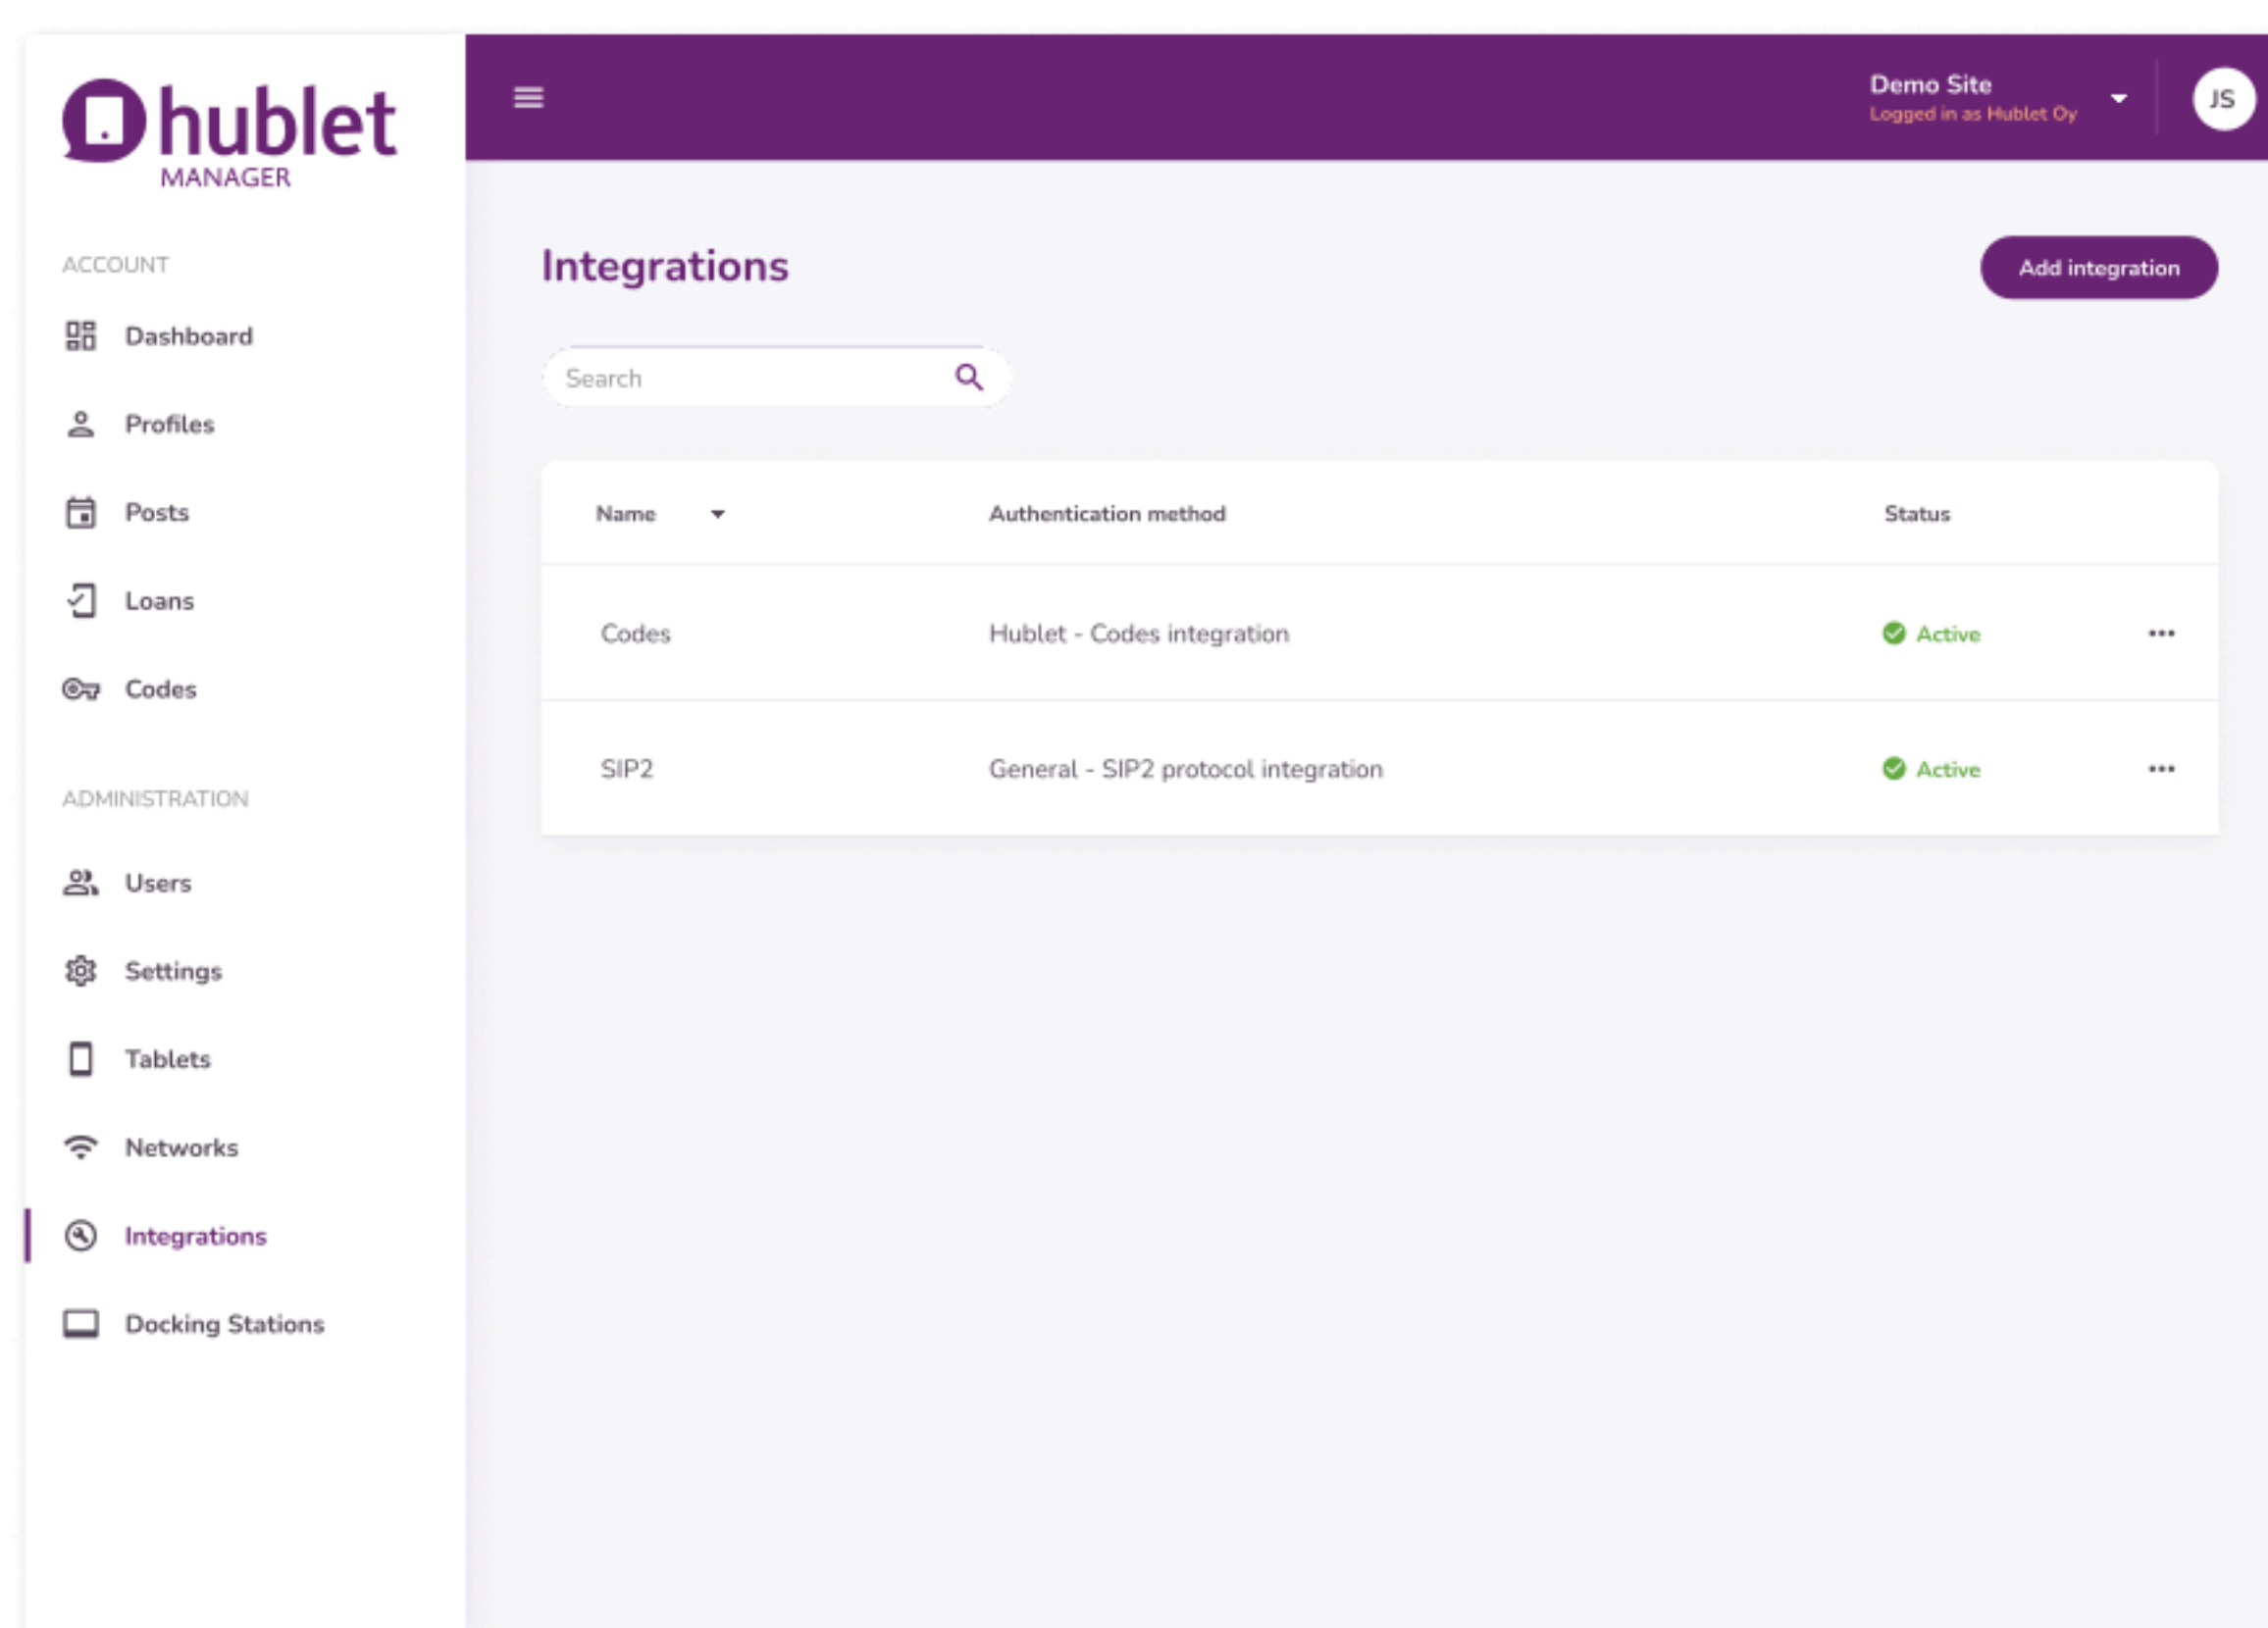

## Hublet Manager for Device Management

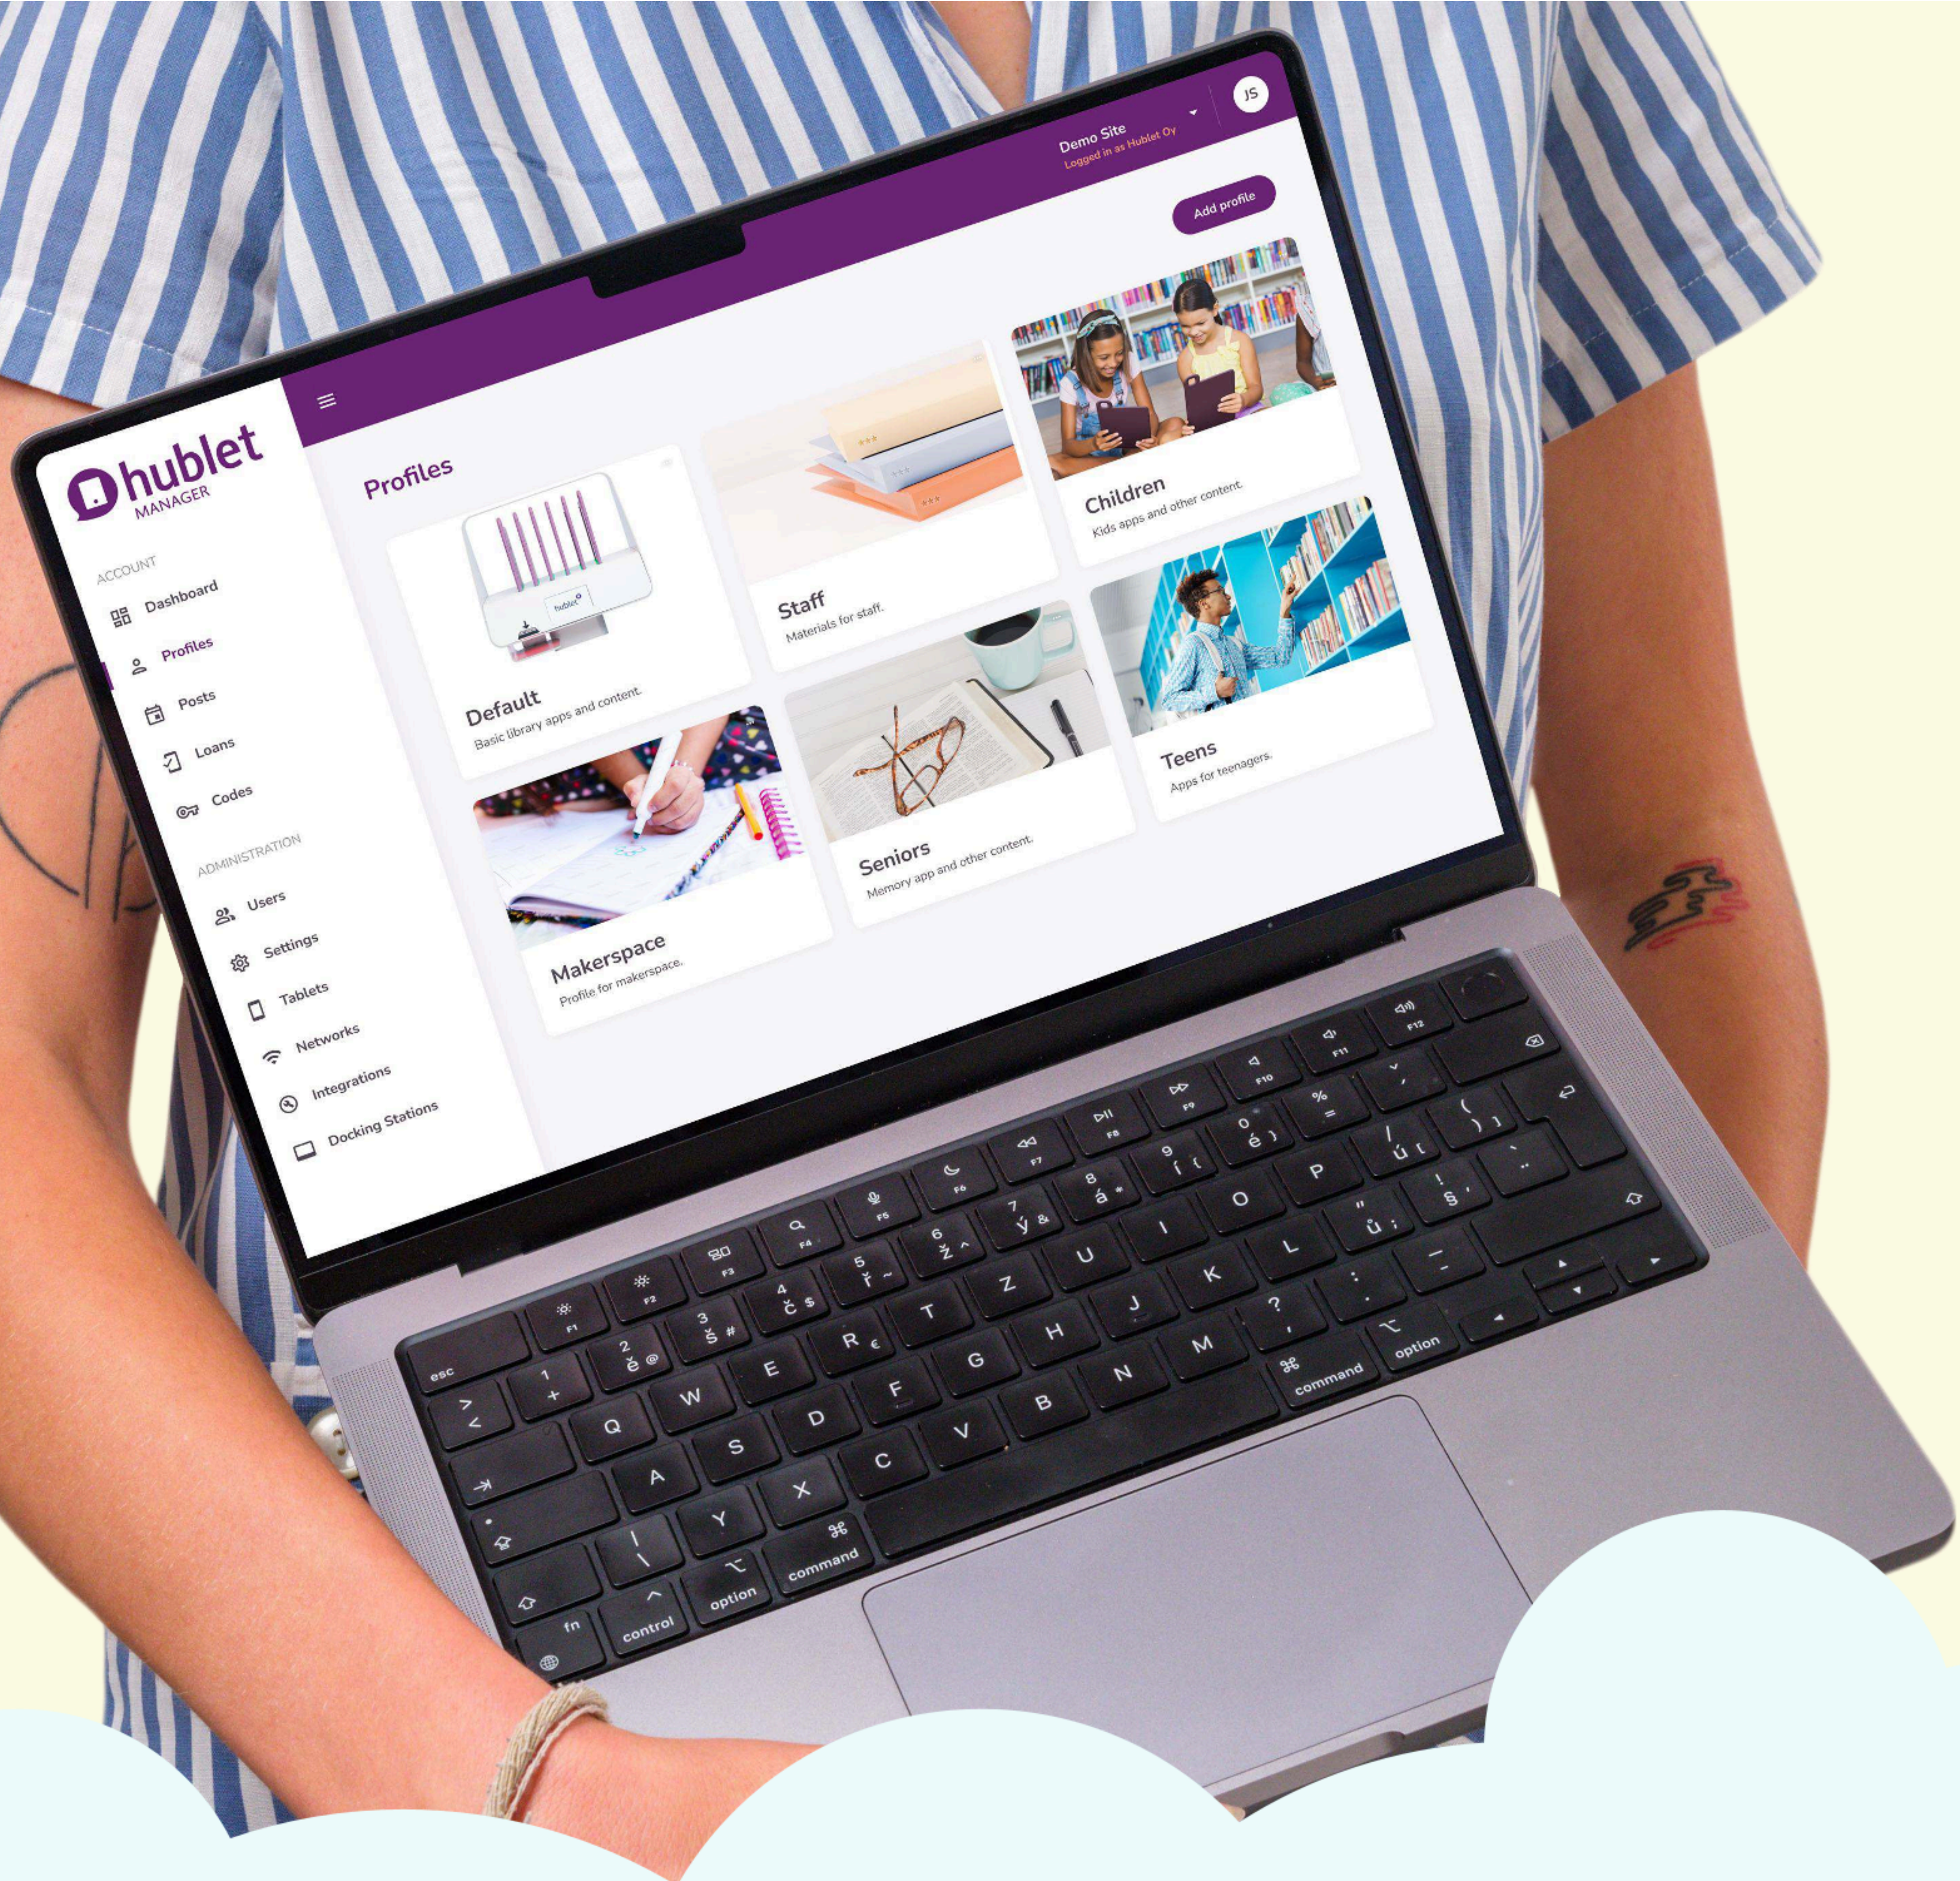

- Manage all your devices and Hublet devices anytime, remotely.
- View the status of the devices.
- Add authorised networks for devices to connect.
- Adjust settings to configure devices manually when needed.

## Hublet Manager for Integration Management

- Authenticate users with Library Management System (LMS) and Integration Management System (ILS) for secure access.
- Authenticate users with direct integration to popular systems.
- Provide loan codes for users not requiring authentication.

## Hublet Profiles

Hublet Profiles, at the core of Hublet Manager, simplifies every step of curating profile-based content to create engaging experiences for your users.

- ✓ Create, curate, personalise, and manage profiles with a few clicks.
- ✓ Begin with easy steps from the Hublet Manager dashboard.
- ✓ Organise your digital content into categories for better navigation.
- ✓ Highlight your key content as easily accessible icons.
- ✓ Edit profile settings to apply various restrictions, such as loan time, age limit, blocking unwanted websites, and configuring camera and speaker settings.
- ✓ Utilise pre-made profile templates for easy content organisation and creative inspiration.
- ✓ Duplicate and update profiles for reuse, and delete unnecessary ones anytime.

# Hublet One and Hublet Dock

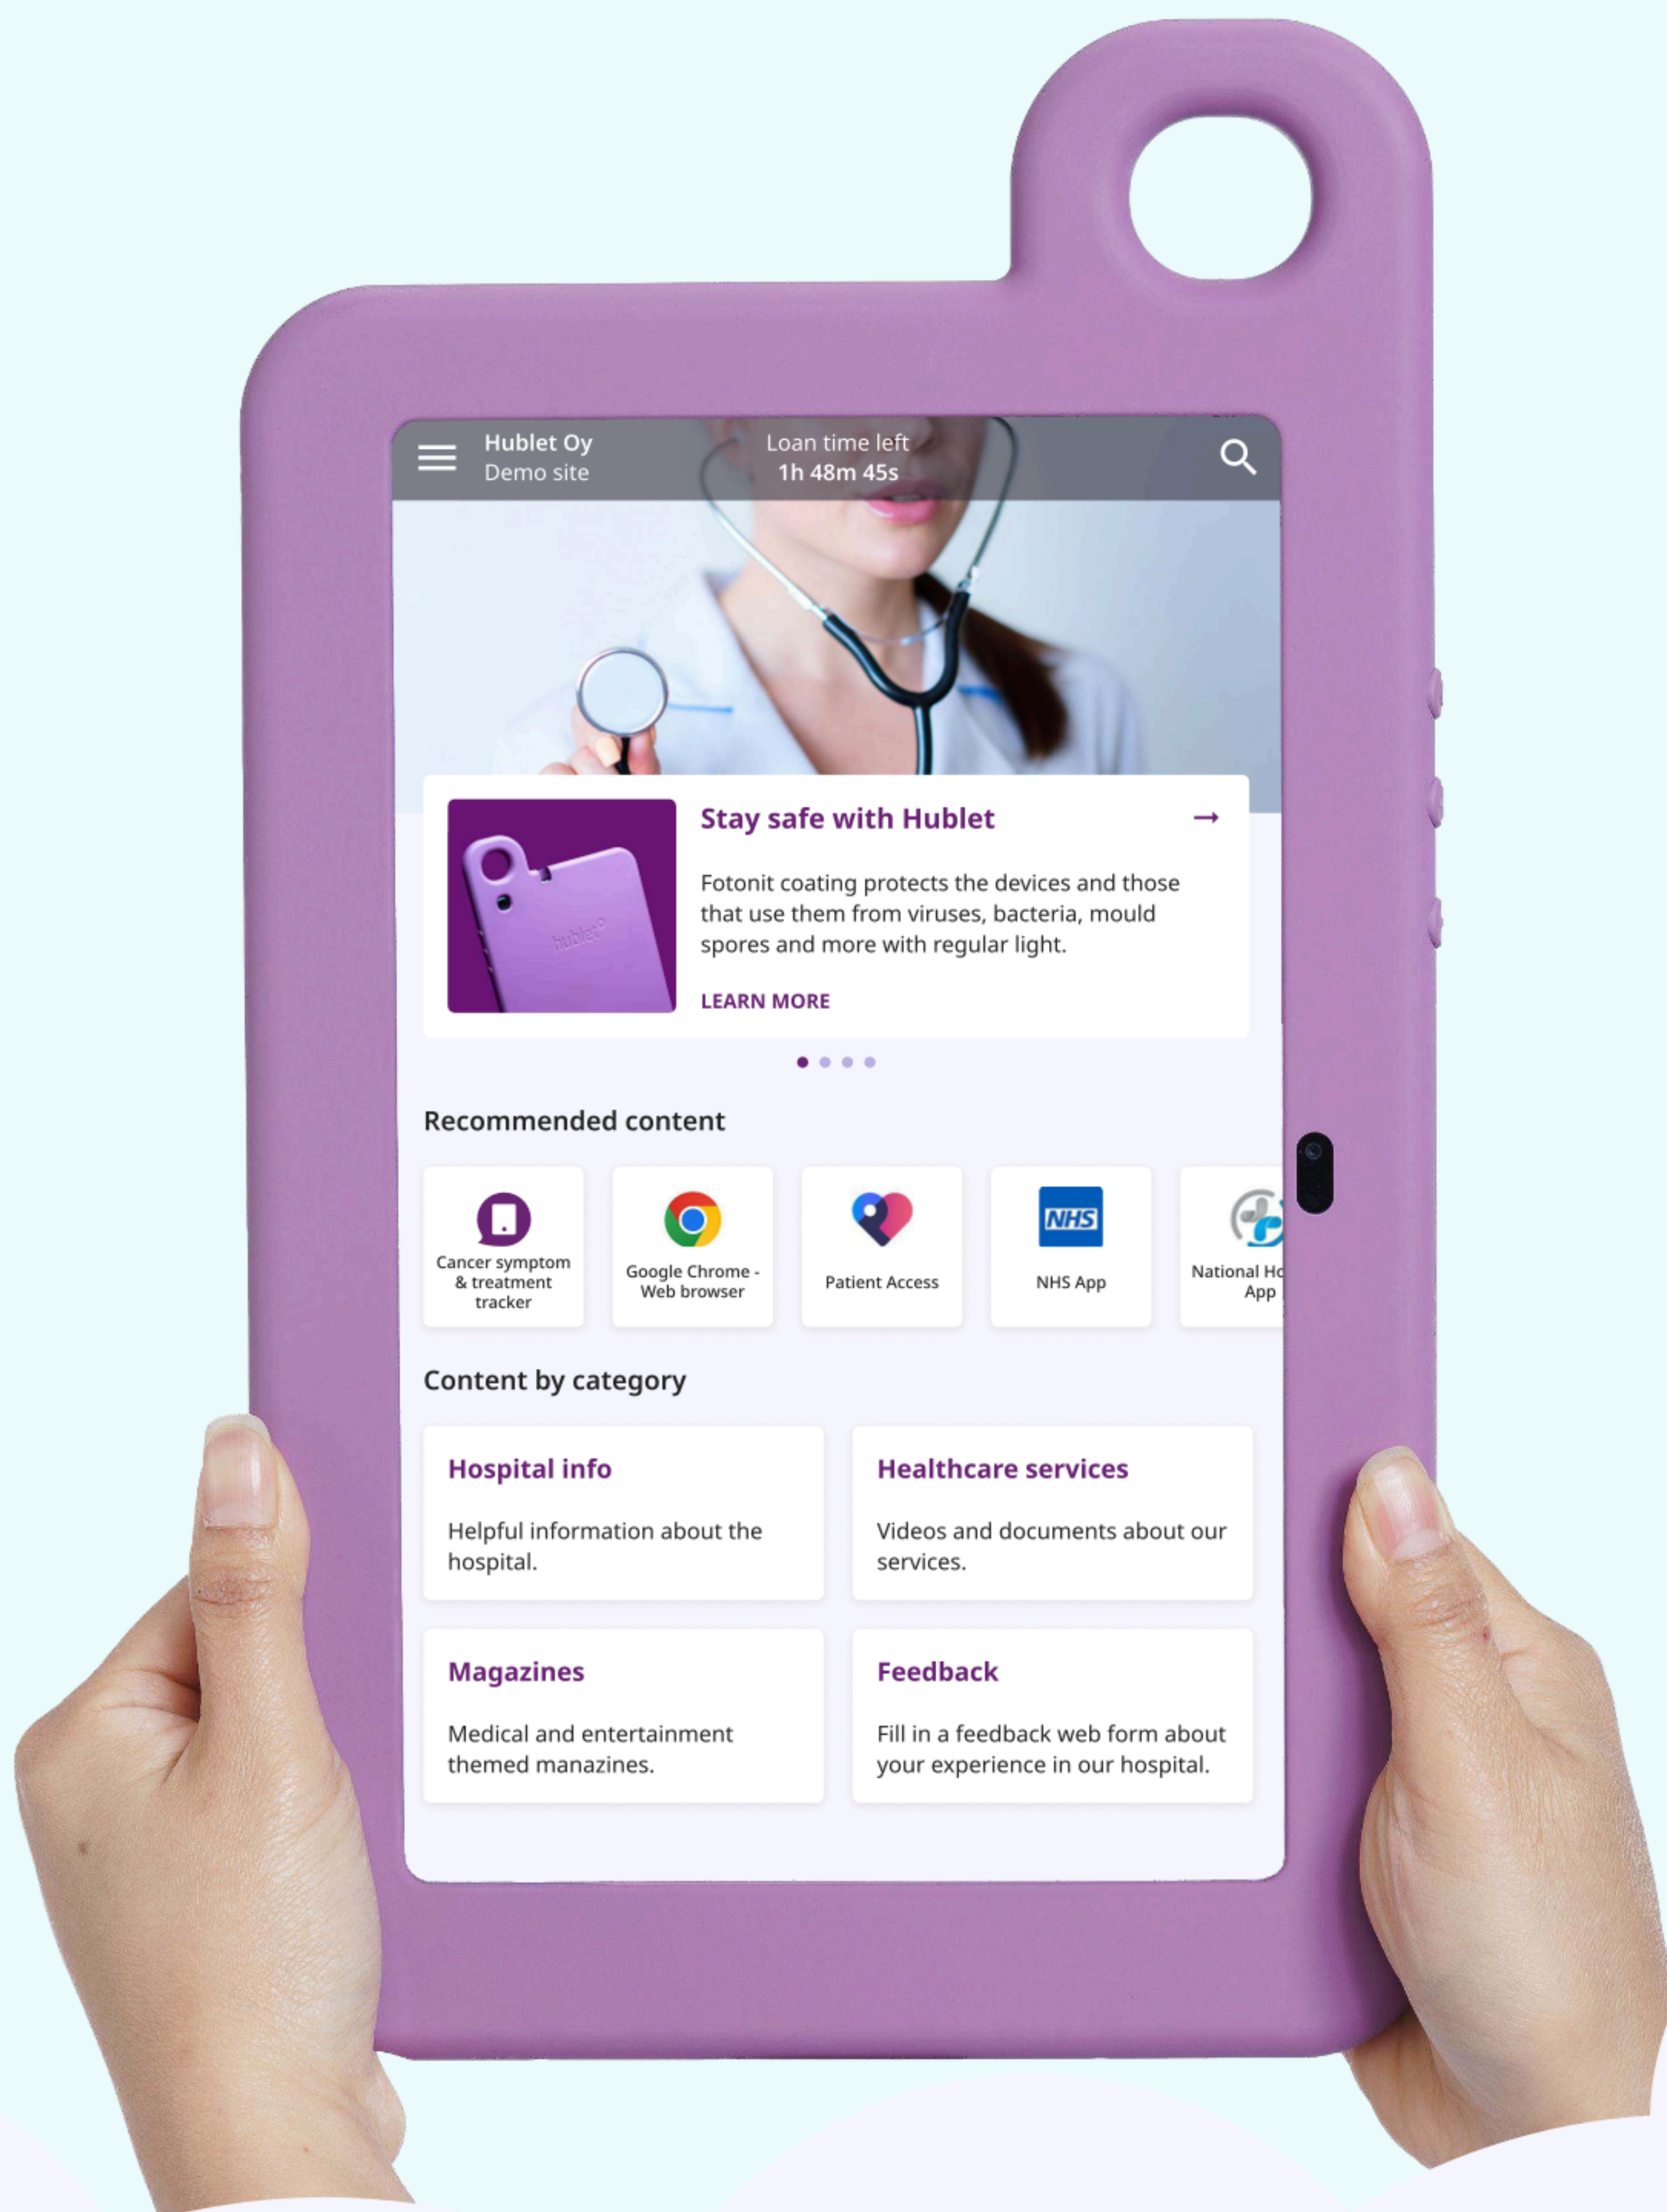

These innovative Hublet add-ons enhance the functionality and versatility of the Hublet Solution.

**Hublet One** – utilise Hublet Solution with more flexibility 9

**Hublet Dock** – enable self-service for easy tablet borrowing and returning 10

**Simplify Self-Service  
Borrow and Return  
Management**

## Hublet One

Hublet One presents the dynamic features of the Hublet Solution with added flexibility. Seamlessly integrate Hublet Tablets across diverse spaces tailored to your organisation's needs.

- ✓ Utilise the Hublet Tablet, running on Android, with a straightforward and intuitive interface.
- ✓ Available in a purple protective case by default, with other colours upon request.
- ✓ Enjoy a large grip handle for convenient carrying, suitable for all ages and abilities.
- ✓ Benefit from a self-disinfecting coating that protects against bacteria and viruses.
- ✓ Experience simple navigation designed for all users.
- ✓ Ensure privacy and security of your users with automatic data erasure.
- ✓ Restrict tablet usage to predefined Wi-Fi networks for added security.

Hublet One features the flexible Hublet On the Go capability, enabling customers to take the Hublet Tablet anywhere.

## Hublet Dock

The Hublet Dock with Hublet Tablets provides a secure, compact solution for self-service borrowing and returning.

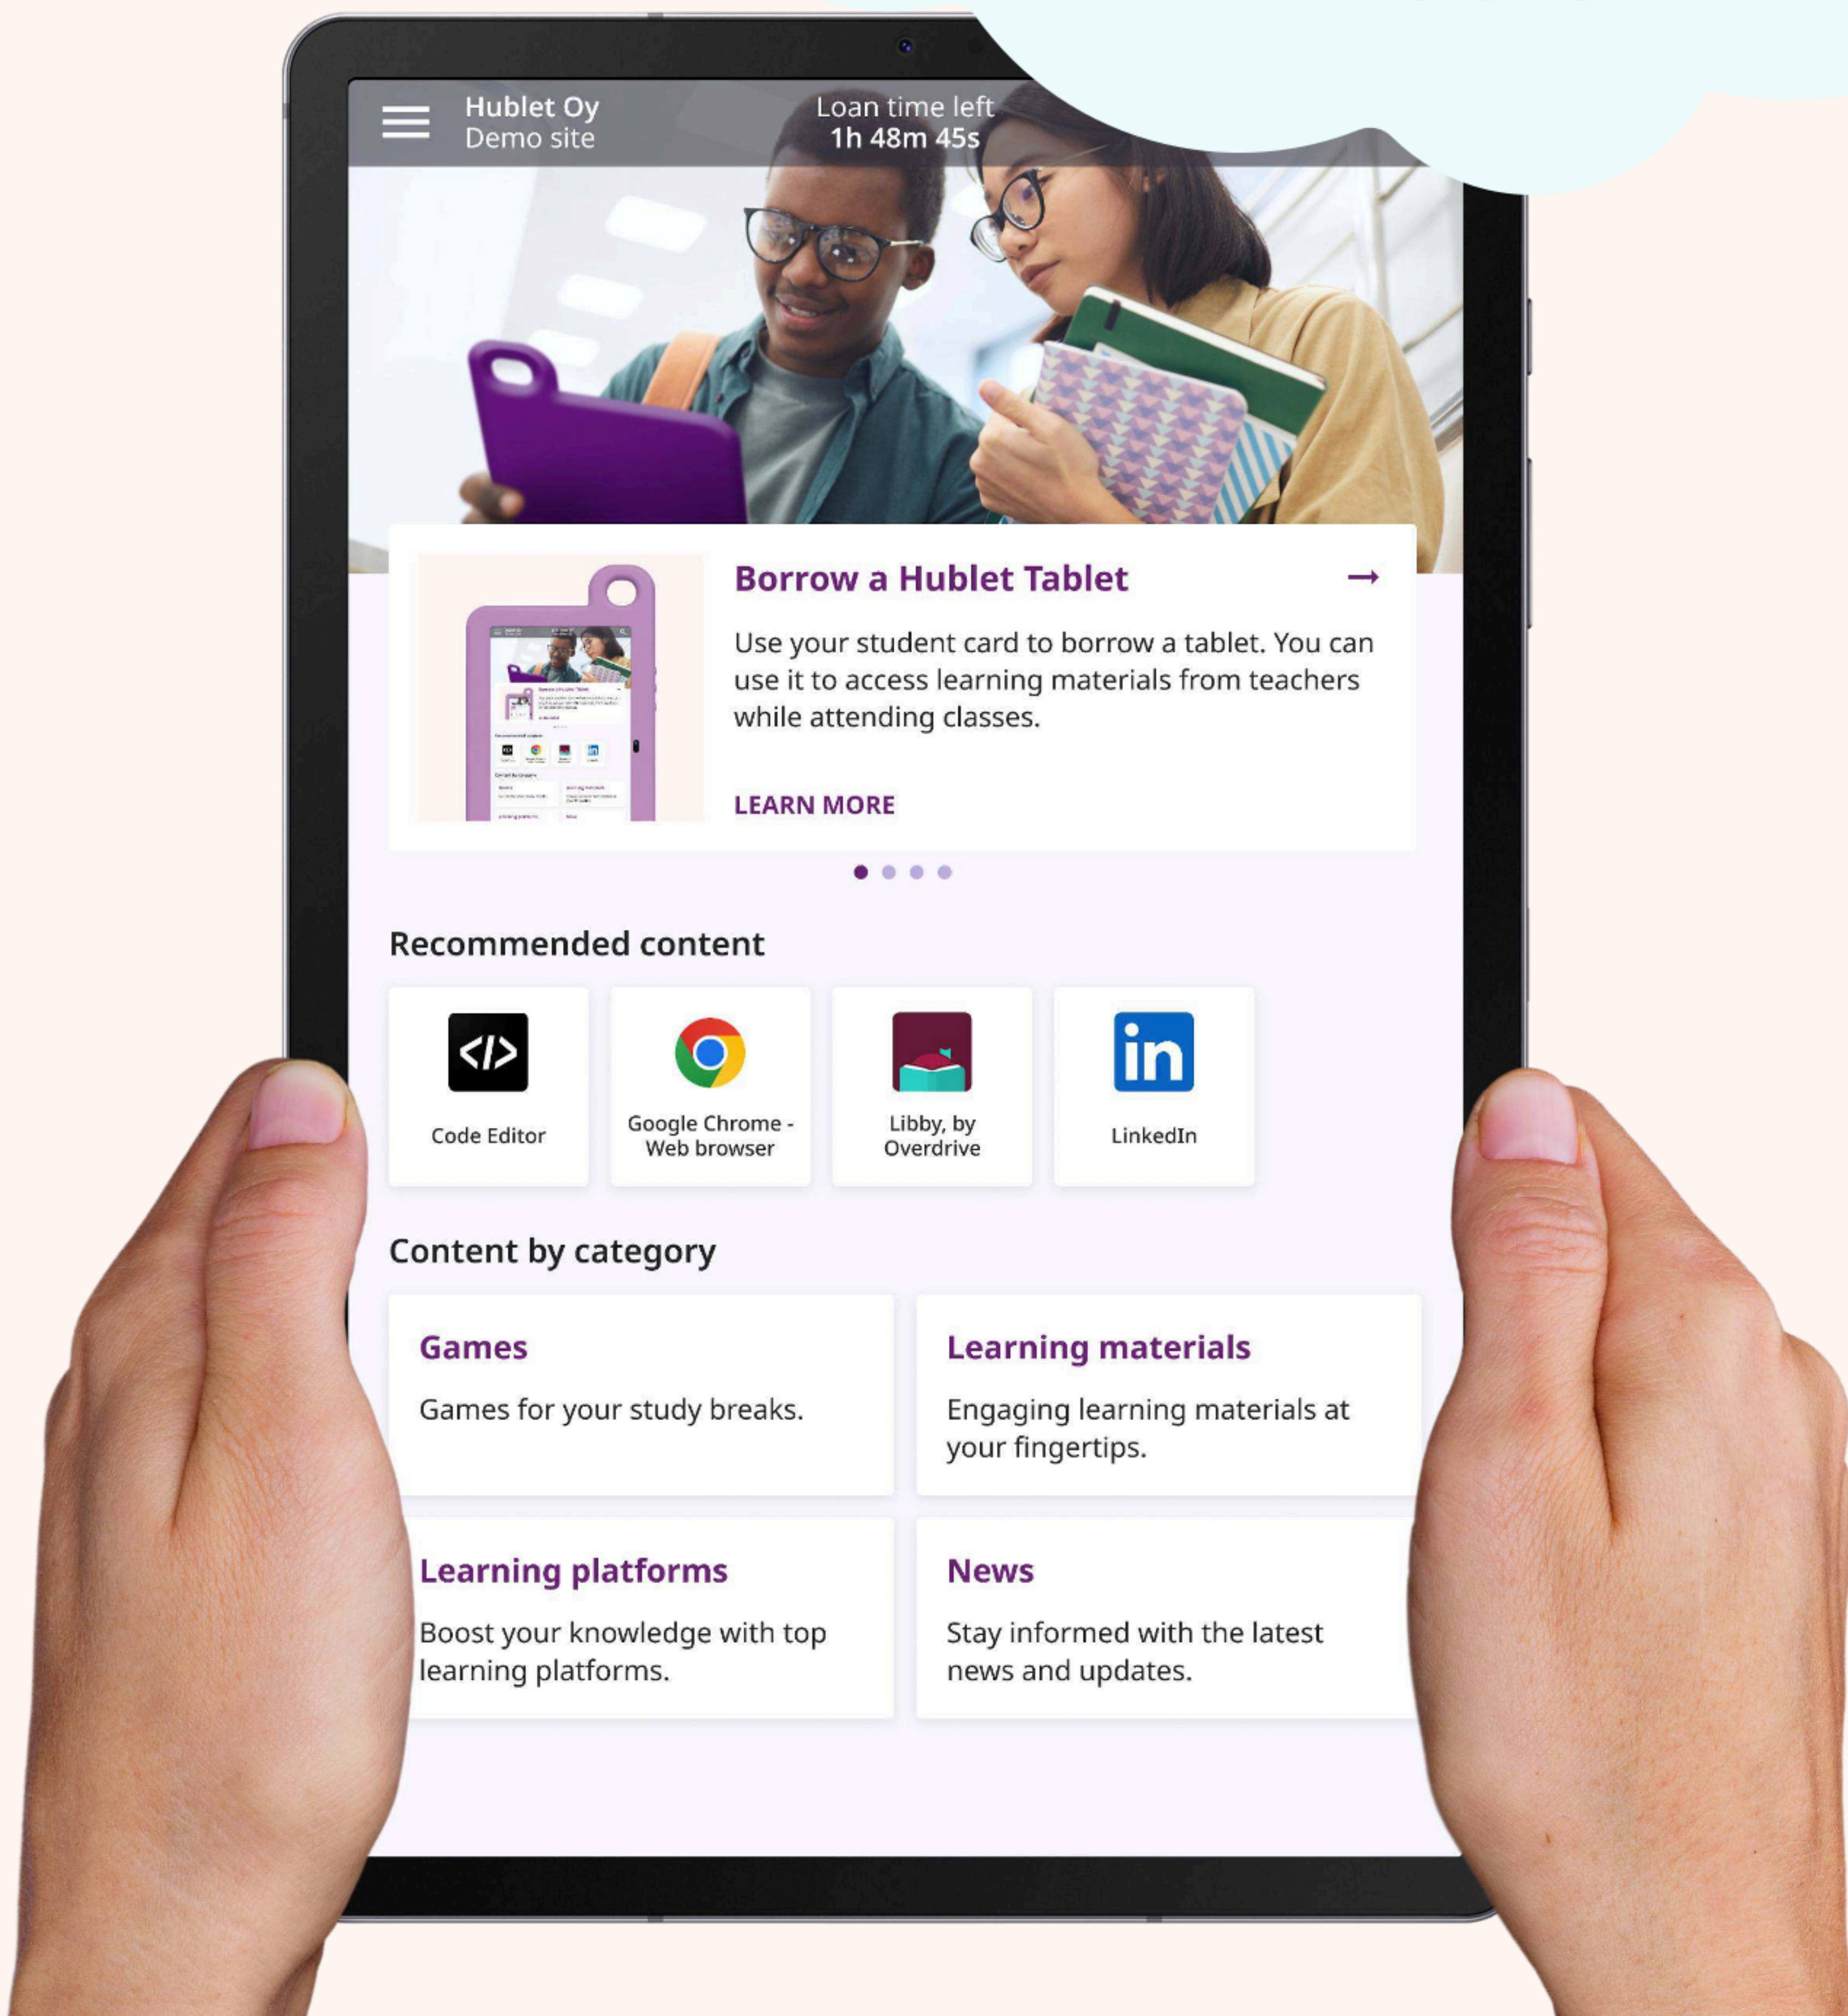

- ✓ Allow Hublet Tablets to be displayed, borrowed, and returned without any staff intervention.
- ✓ Enjoy an easy borrowing process with multiple options (barcode, QR code, RFID, PIN).
- ✓ Automatically lock, reset the tablets to default settings, and initiate charging upon return.
- ✓ Ensure user data privacy with automatic data wiping after each use.
- ✓ Use the touchscreen with a simple interface supporting 20+ languages and profile selection.
- ✓ Benefit from a self-disinfecting coating on the touchscreen against bacteria and viruses.
- ✓ Easily to be managed remotely via Hublet Manager, without needing advanced IT skills.
- ✓ Automatically receive the latest version updates, eliminating the need for staff involvement.

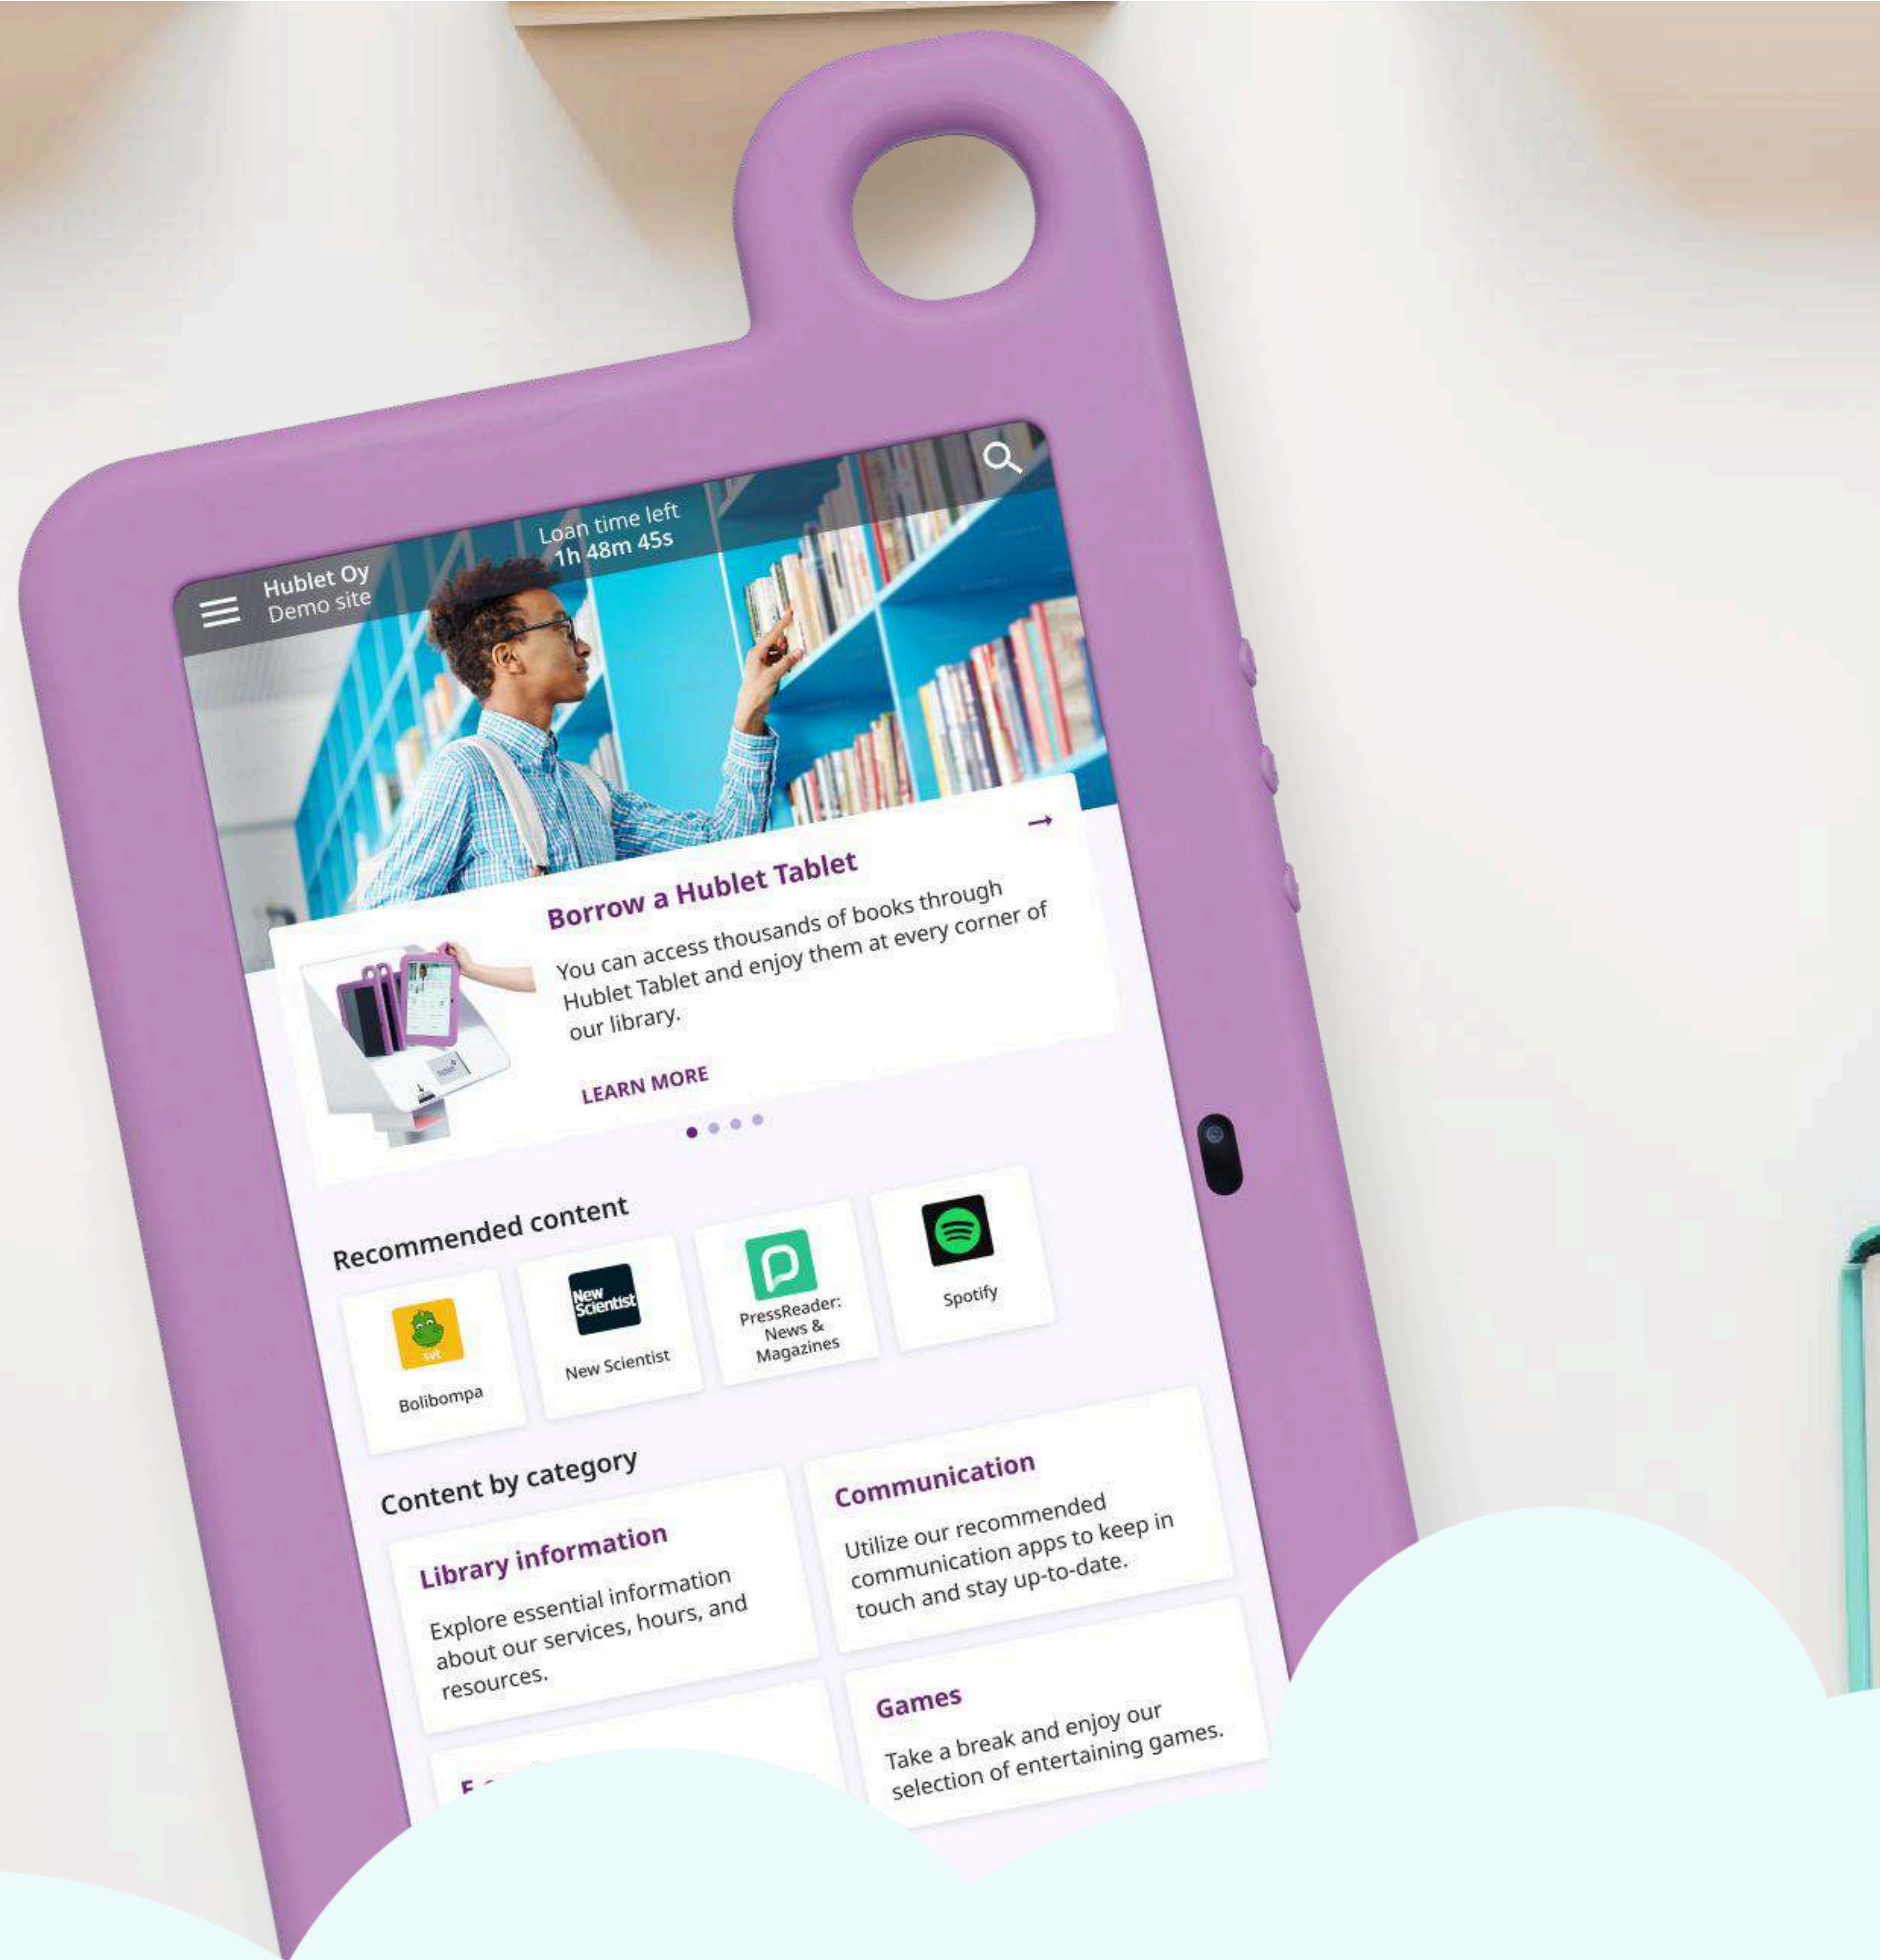

# Available in Different Sectors

**Hublet helps  
Organisations, Big or  
Small, Become more  
Efficient.**

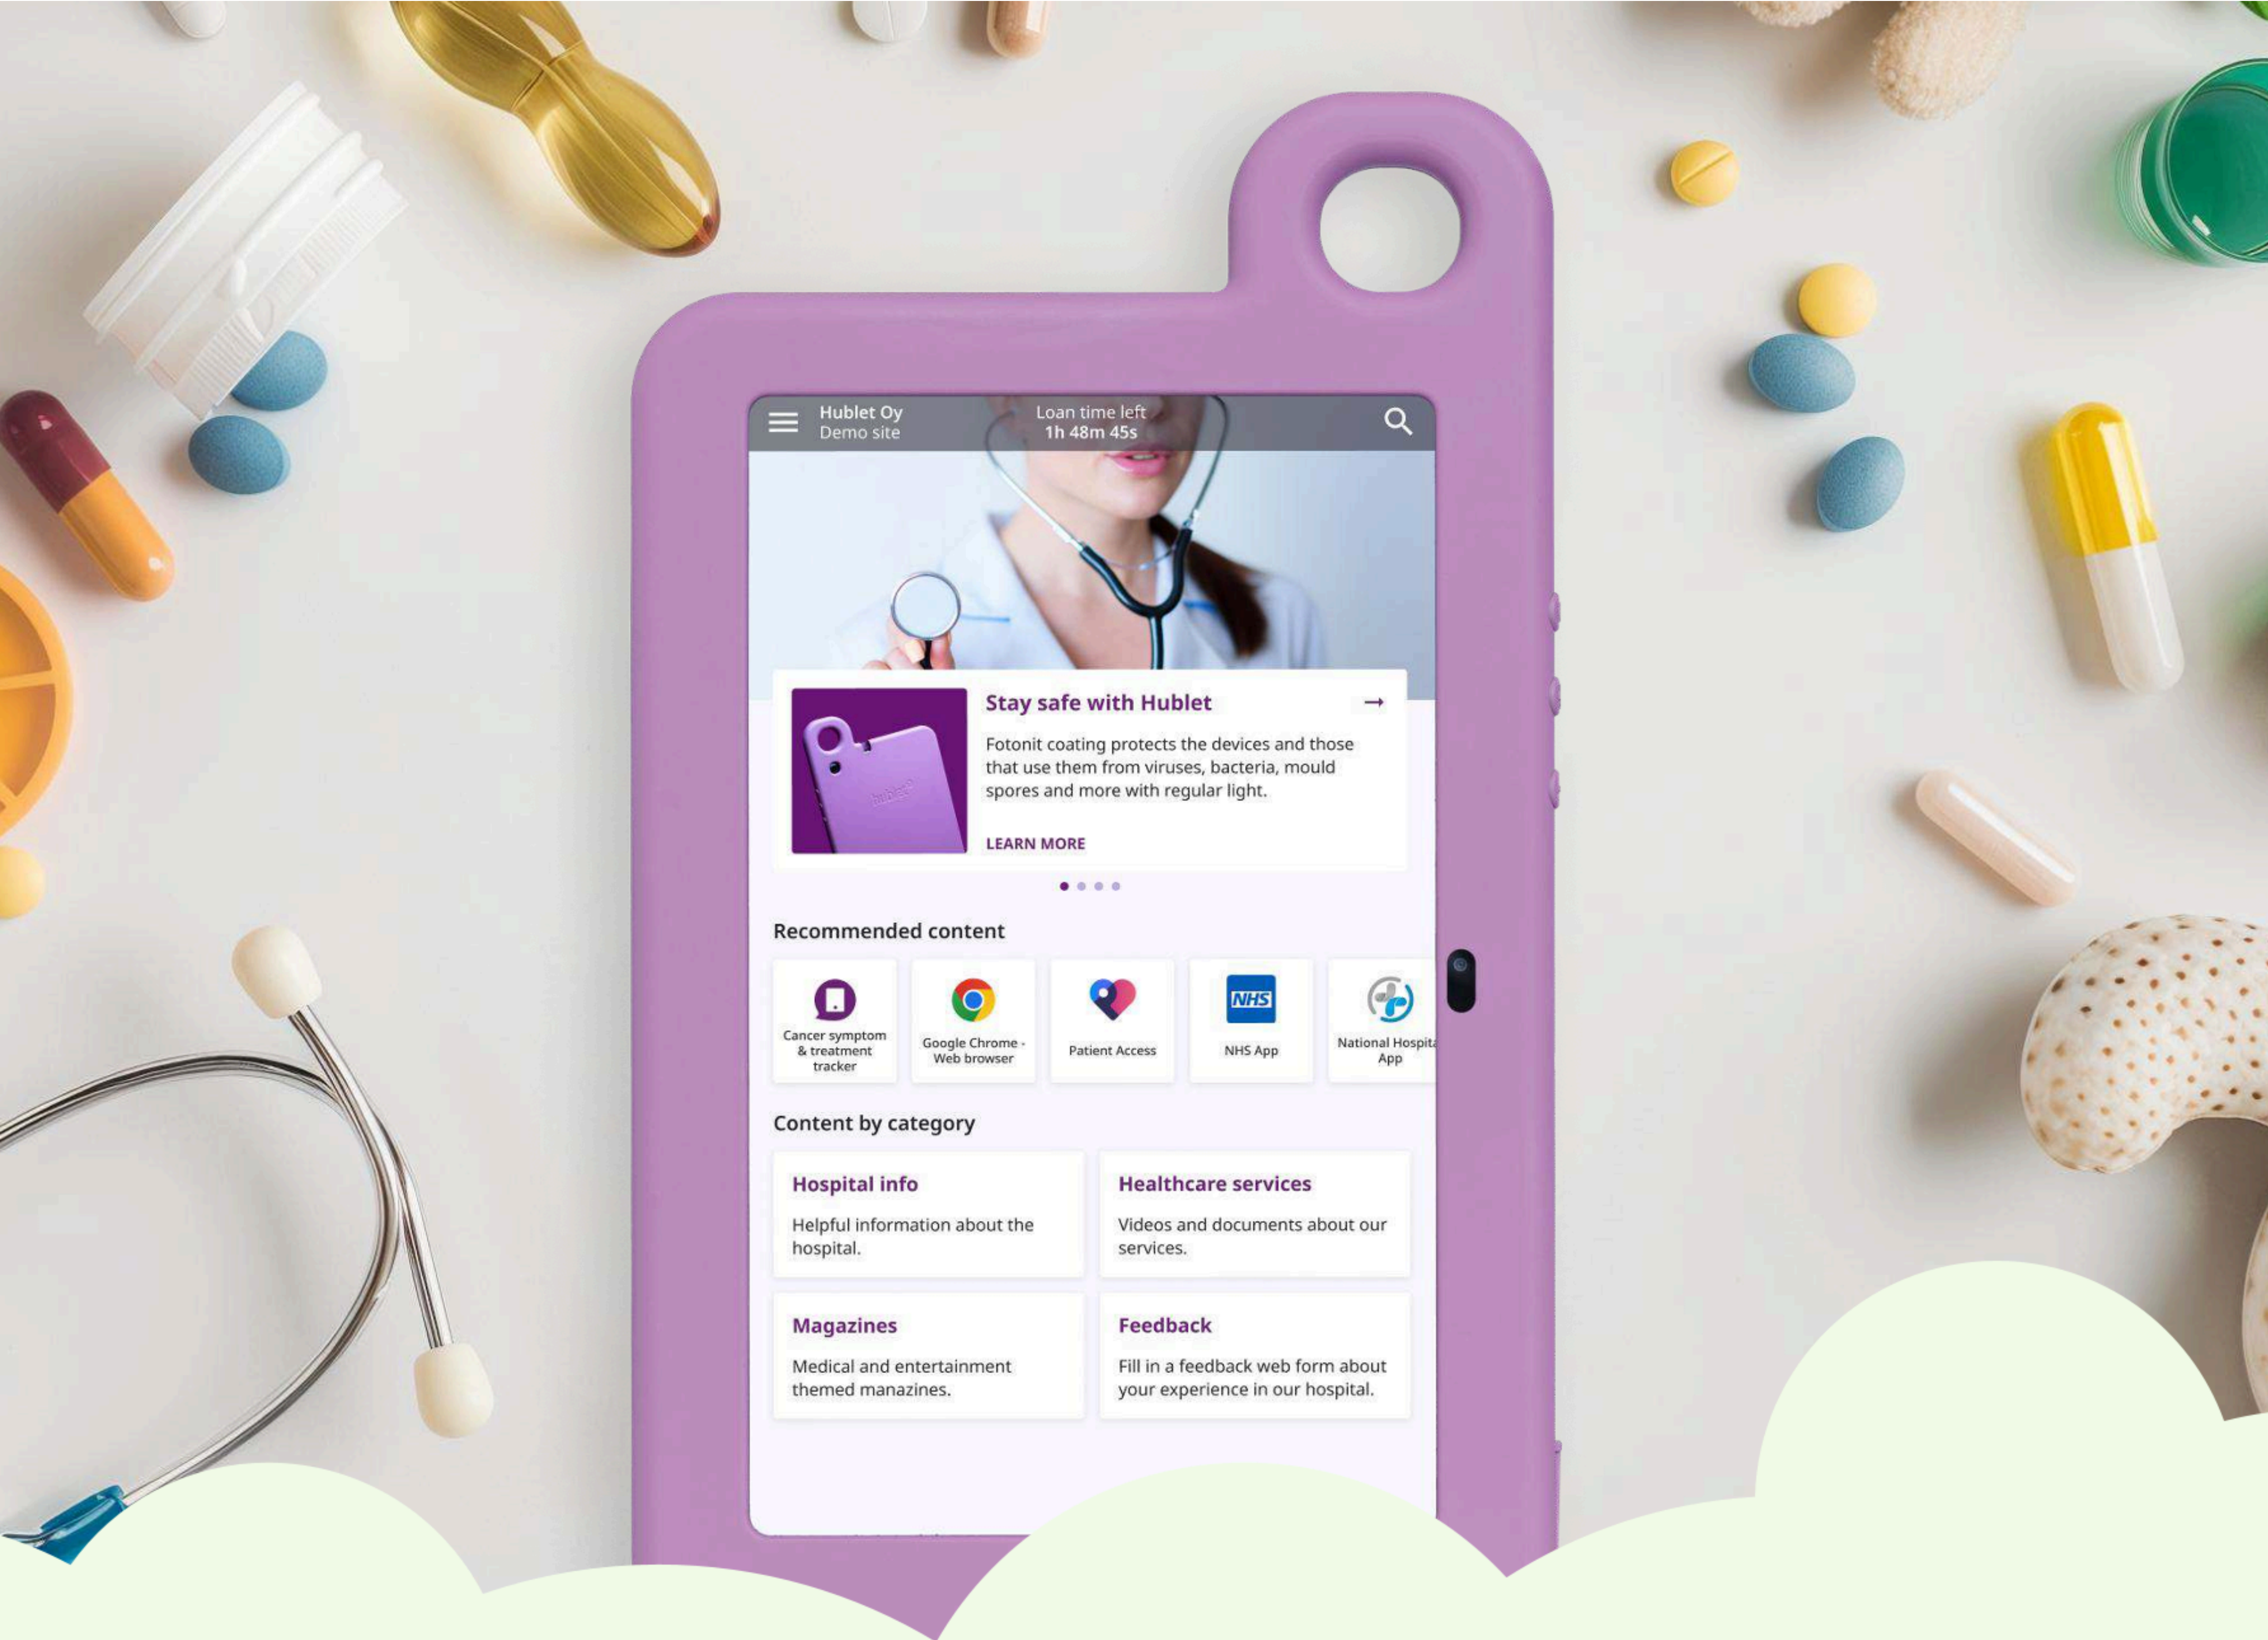

## Hublet for Library

It's perfect for providing tailored, personalised digital content with profiles catering to diverse age groups and preferences.

Customise content for children's hobby clubs, assist job seekers with applications, aid elderly adults with everyday tasks at home, or engage movie enthusiasts in learning more about favourite actors, among other possibilities.

- ✓ Integrate quickly with any library management system.
- ✓ Create, curate, and personalise user profiles effortlessly using ready-made templates.
- ✓ Allow visitors to access your digital catalogue independently, anytime, from anywhere.
- ✓ Save staff time with the Hublet Dock self-service station and automatic app updates.
- ✓ Automate loan authentication and device tracking for efficiency.
- ✓ Work only within authorised networks, safeguard against device settings and content alterations.
- ✓ Secure user privacy by automatically erasing personal data after each use on shared devices.
- ✓ Reduce paper prints and minimise staff administrative tasks.

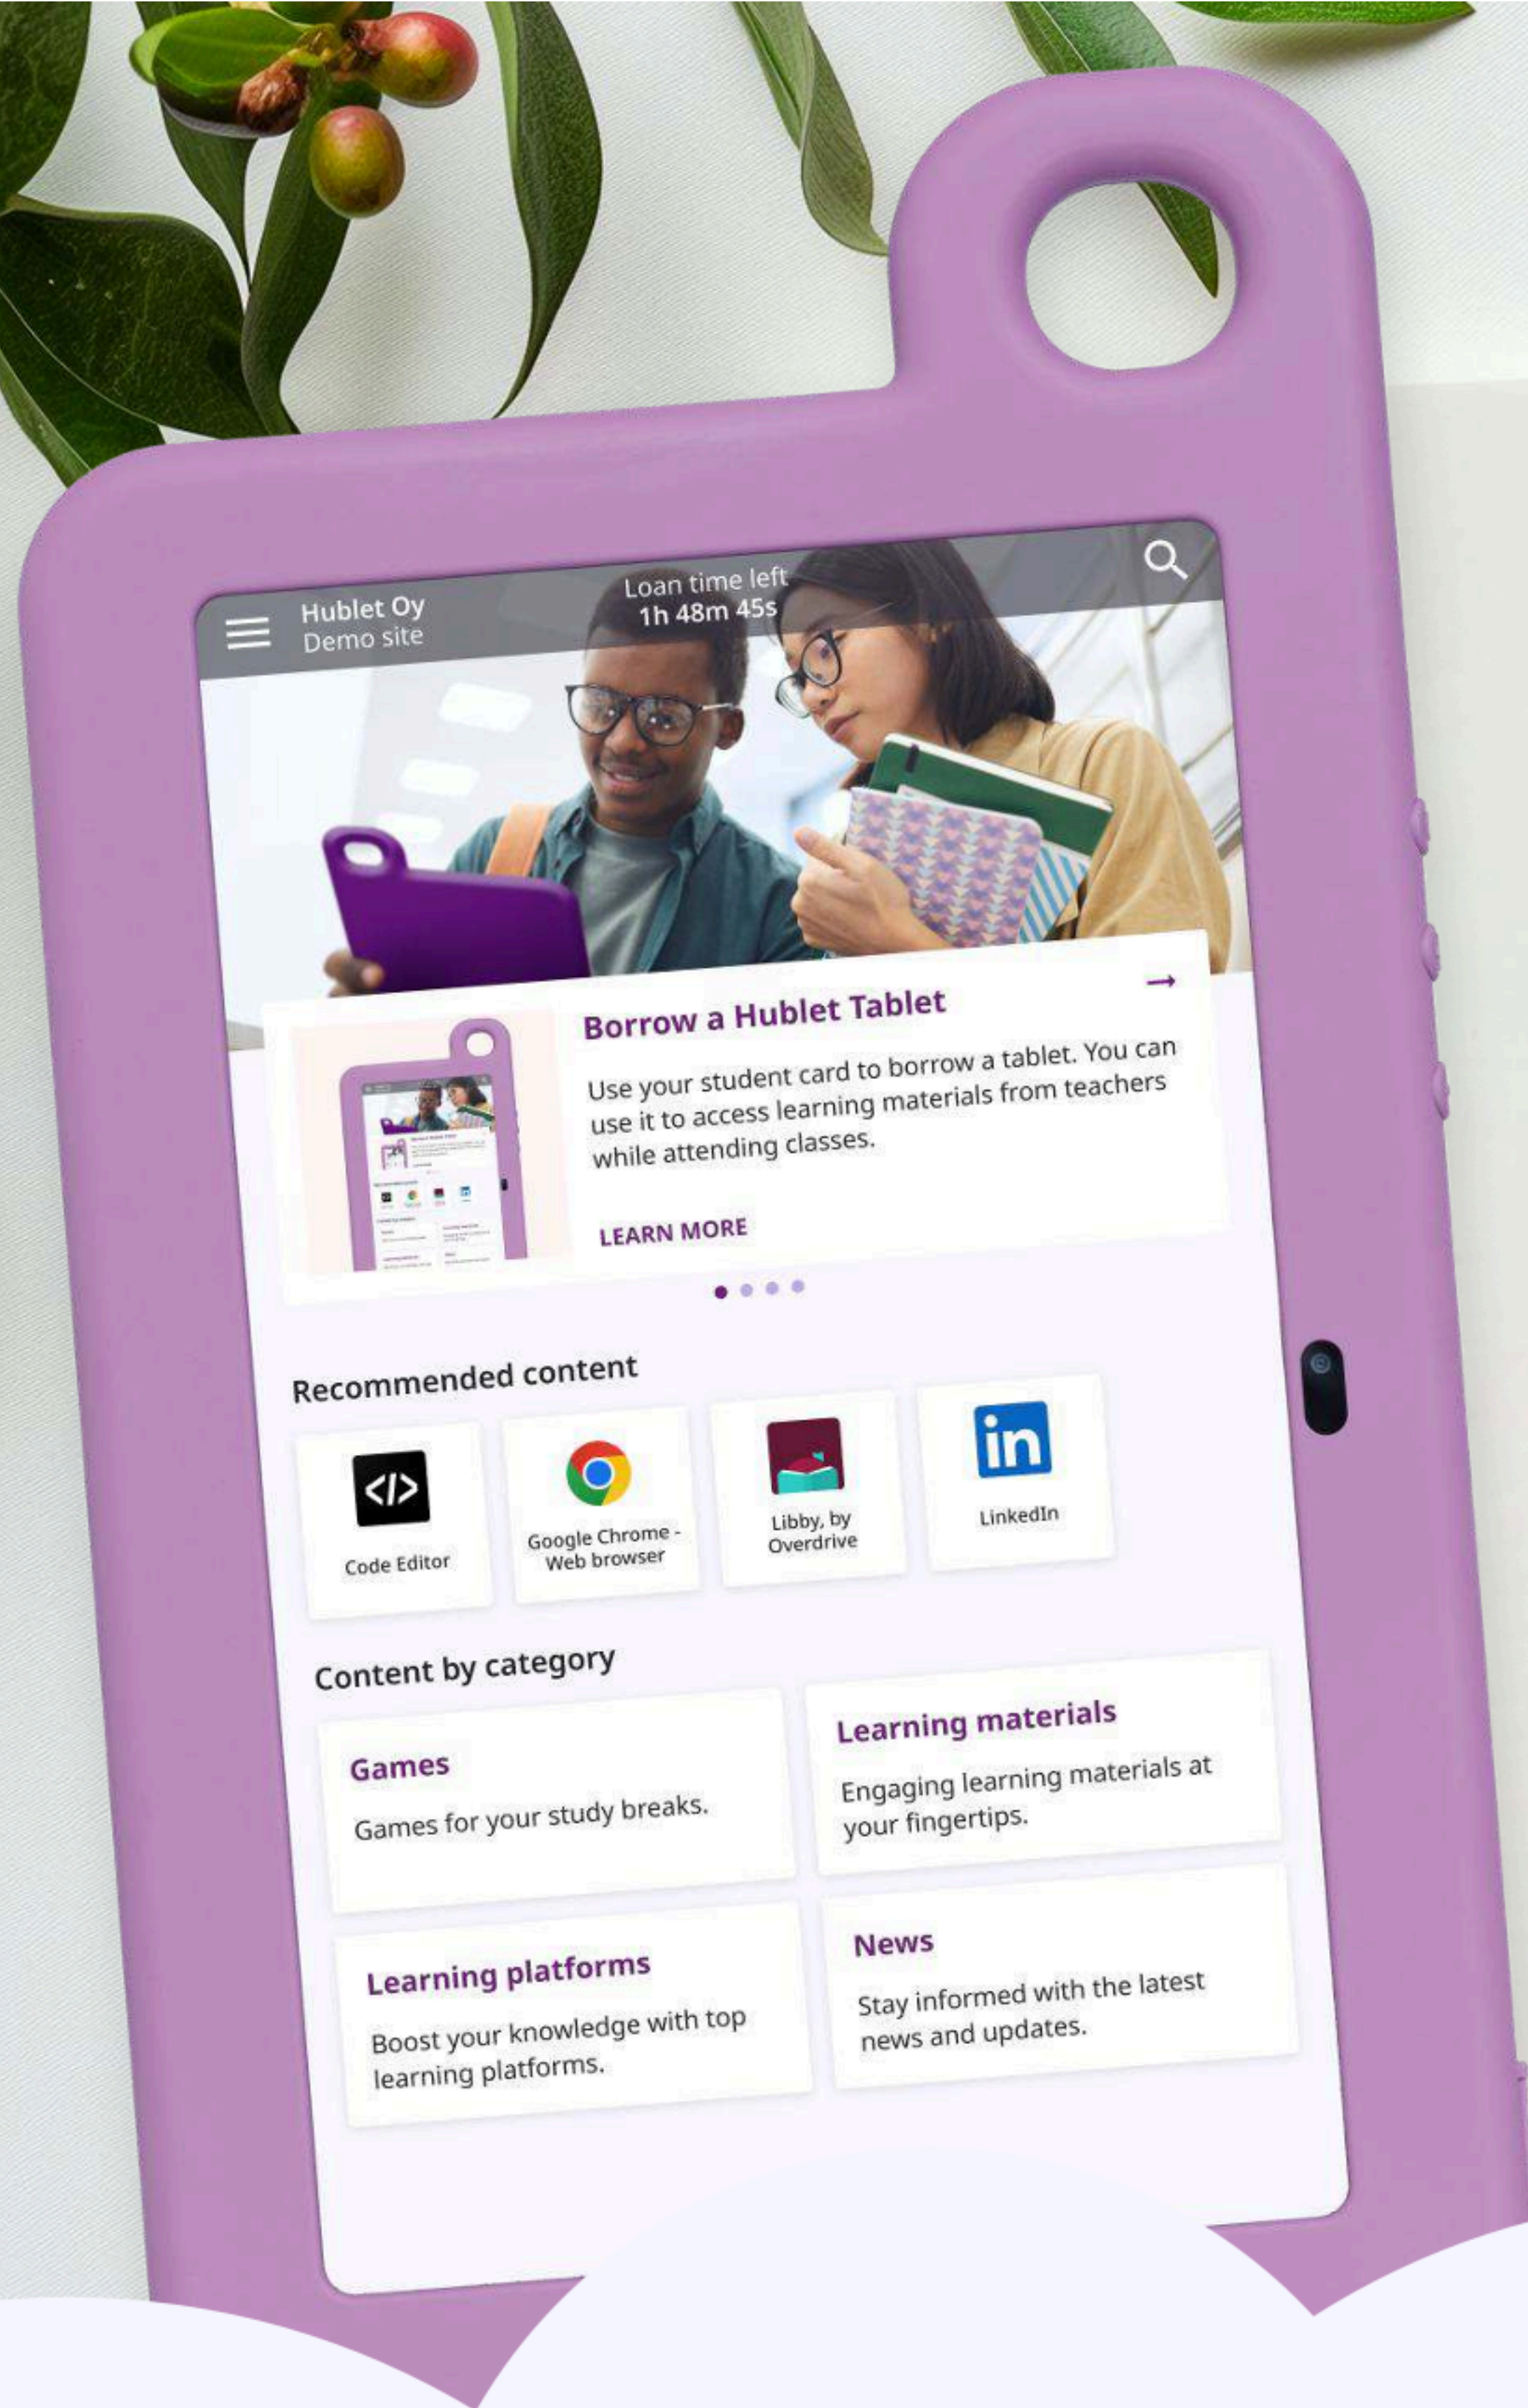

## Hublet for Healthcare

It's perfect for offering trusted, supportive, and personalised patient profiles during their stay and rehabilitation periods.

Personalise content to aid patient rehabilitation in remote care, offers daily health exercises for inpatients and provide meaningful entertainment for patients and visitors to alleviate care-related anxiety.

- ✓ Effortlessly curate and update personalised patient profiles given trusted healthcare information.
- ✓ Improve patient satisfaction by making wait times more enjoyable.
- ✓ Foster better health results through active, real-time patient collaboration, whether in-person or online.
- ✓ Accessible design allows people of all ages and abilities to use shared devices with ease.
- ✓ Secure user privacy by automatically erasing personal data after each use on shared devices.
- ✓ Minimise workload by allow staff to work digitally away from the desk, access patient data and take notes on the go.
- ✓ Automatic updates simplify device management, eliminating the need for advanced IT skills.

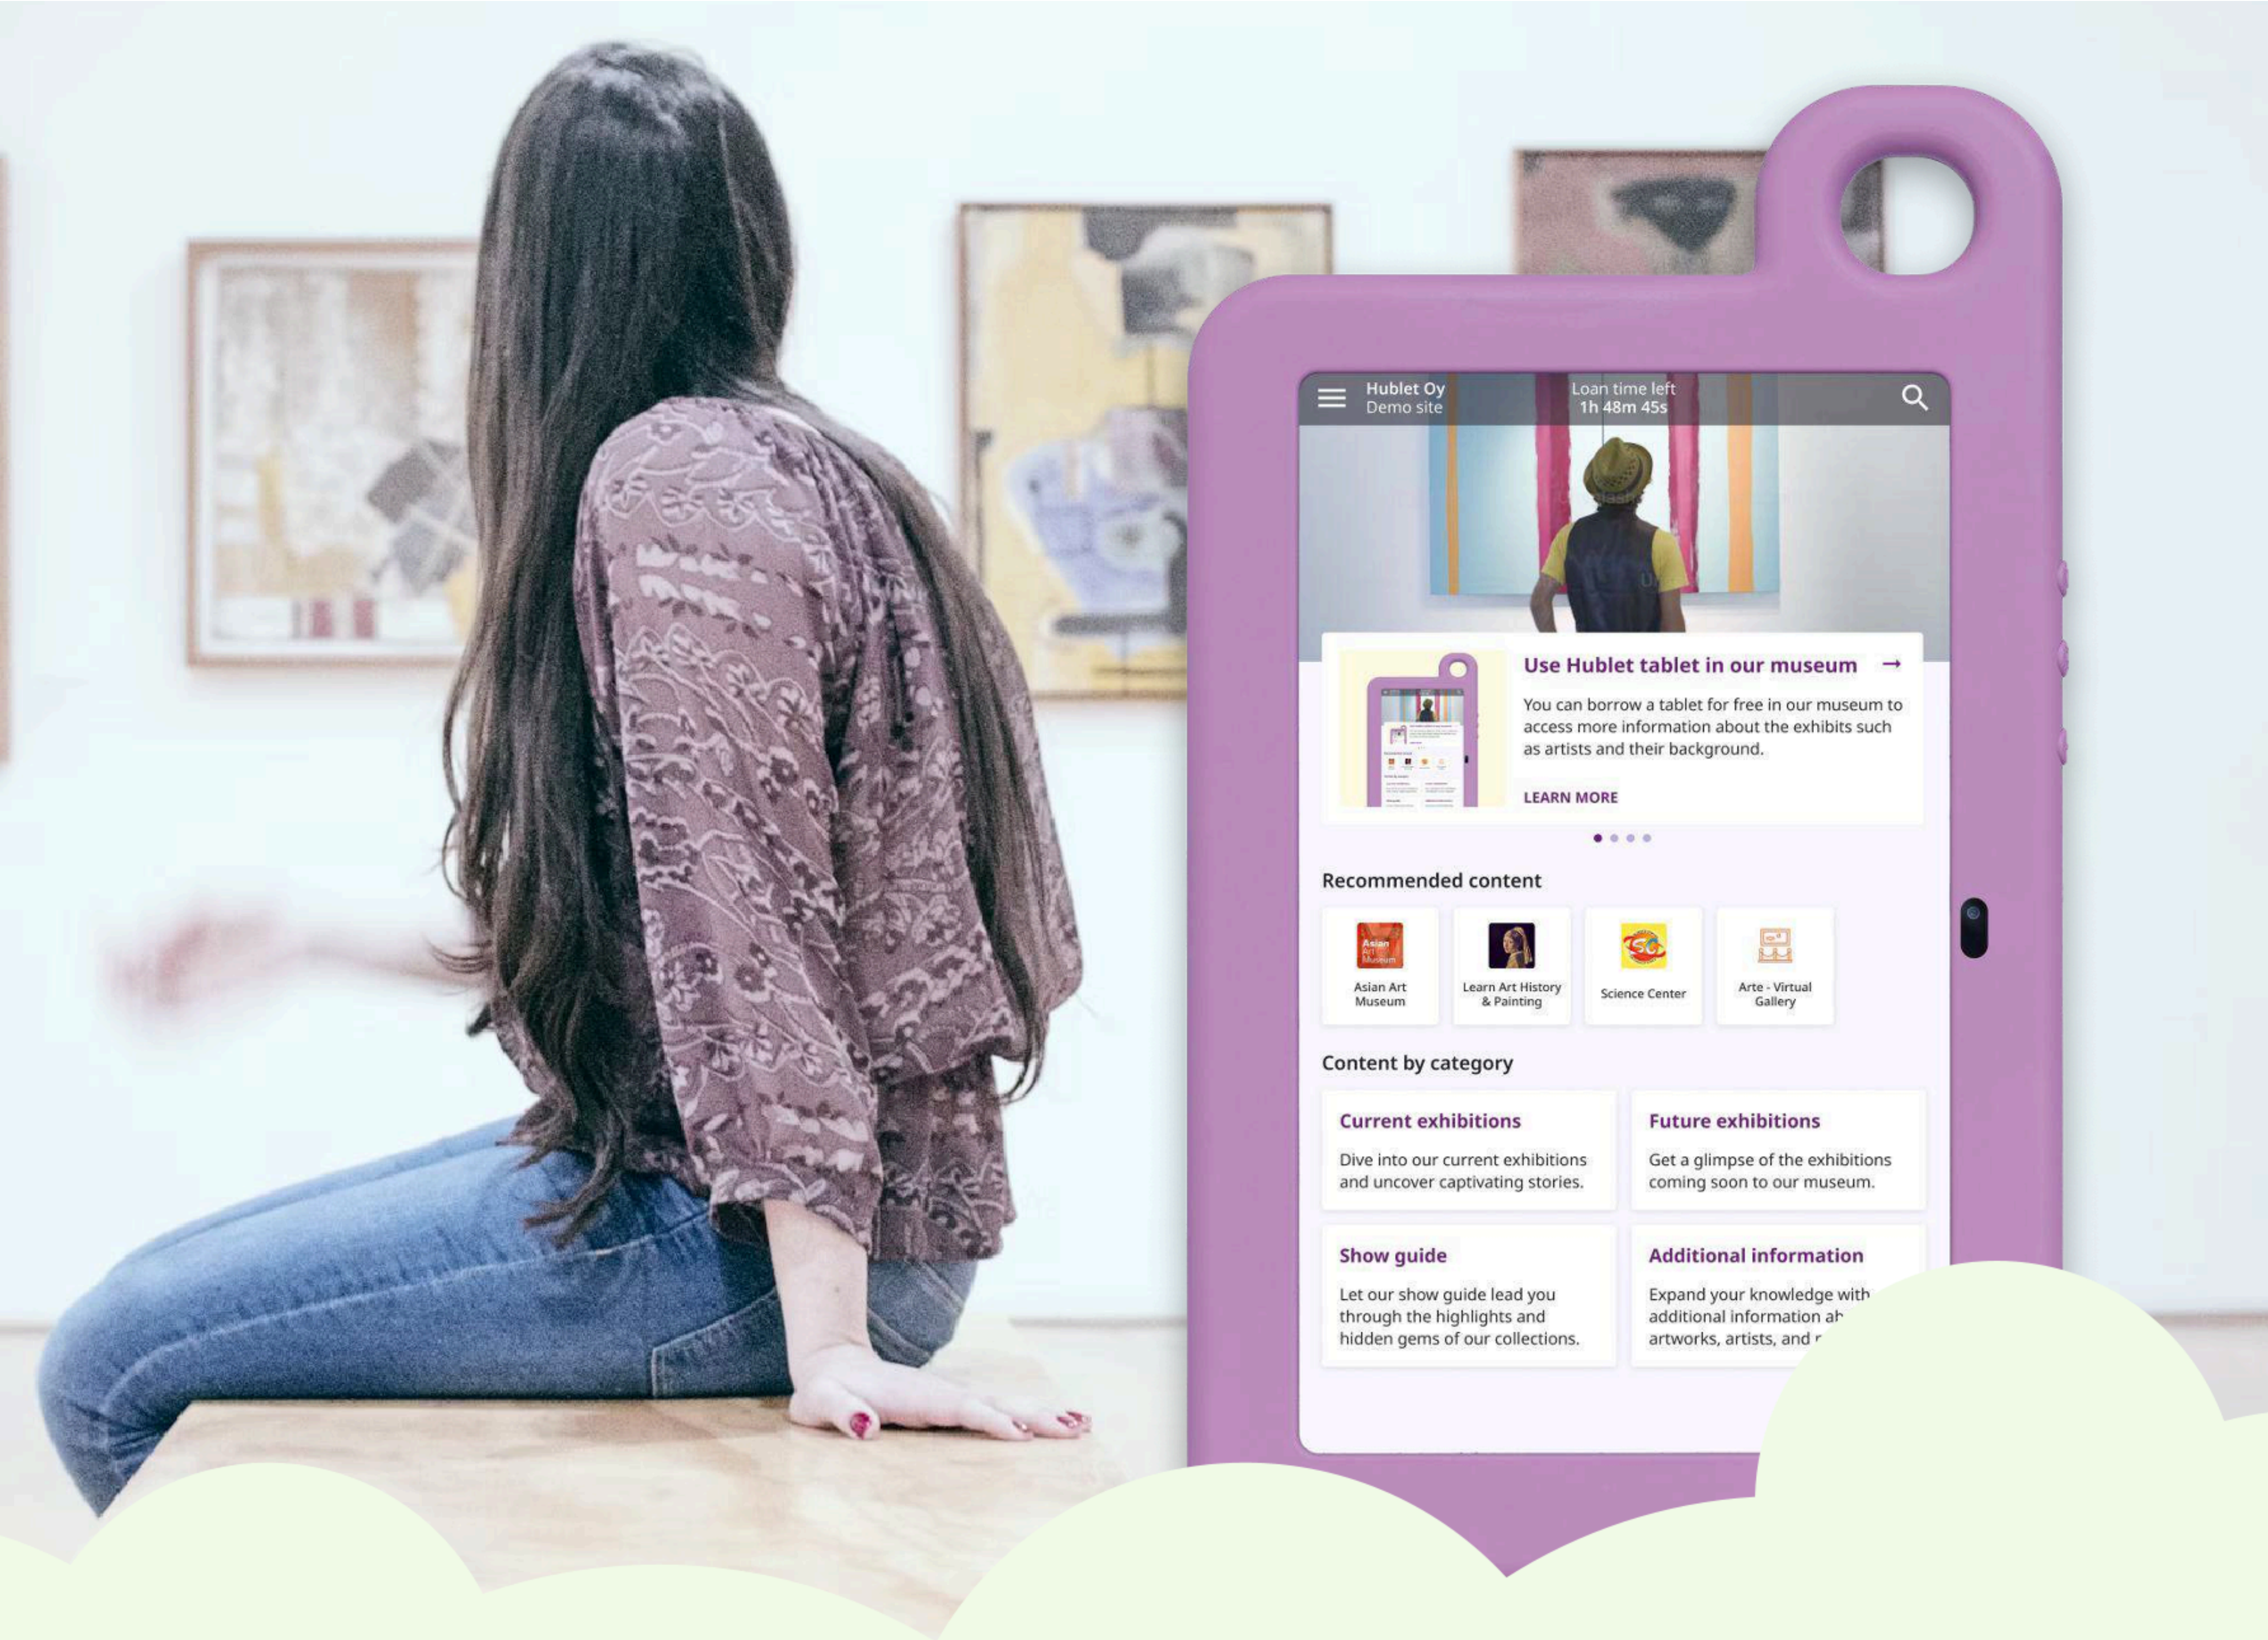

## Hublet for Education

It's perfect for creating seamless, personalised learning experiences in classrooms or any dedicated learning space.

Transform learning environments into dynamic hubs of knowledge, collaboration, and engagement for educators and learners of all ages, grades, and levels.

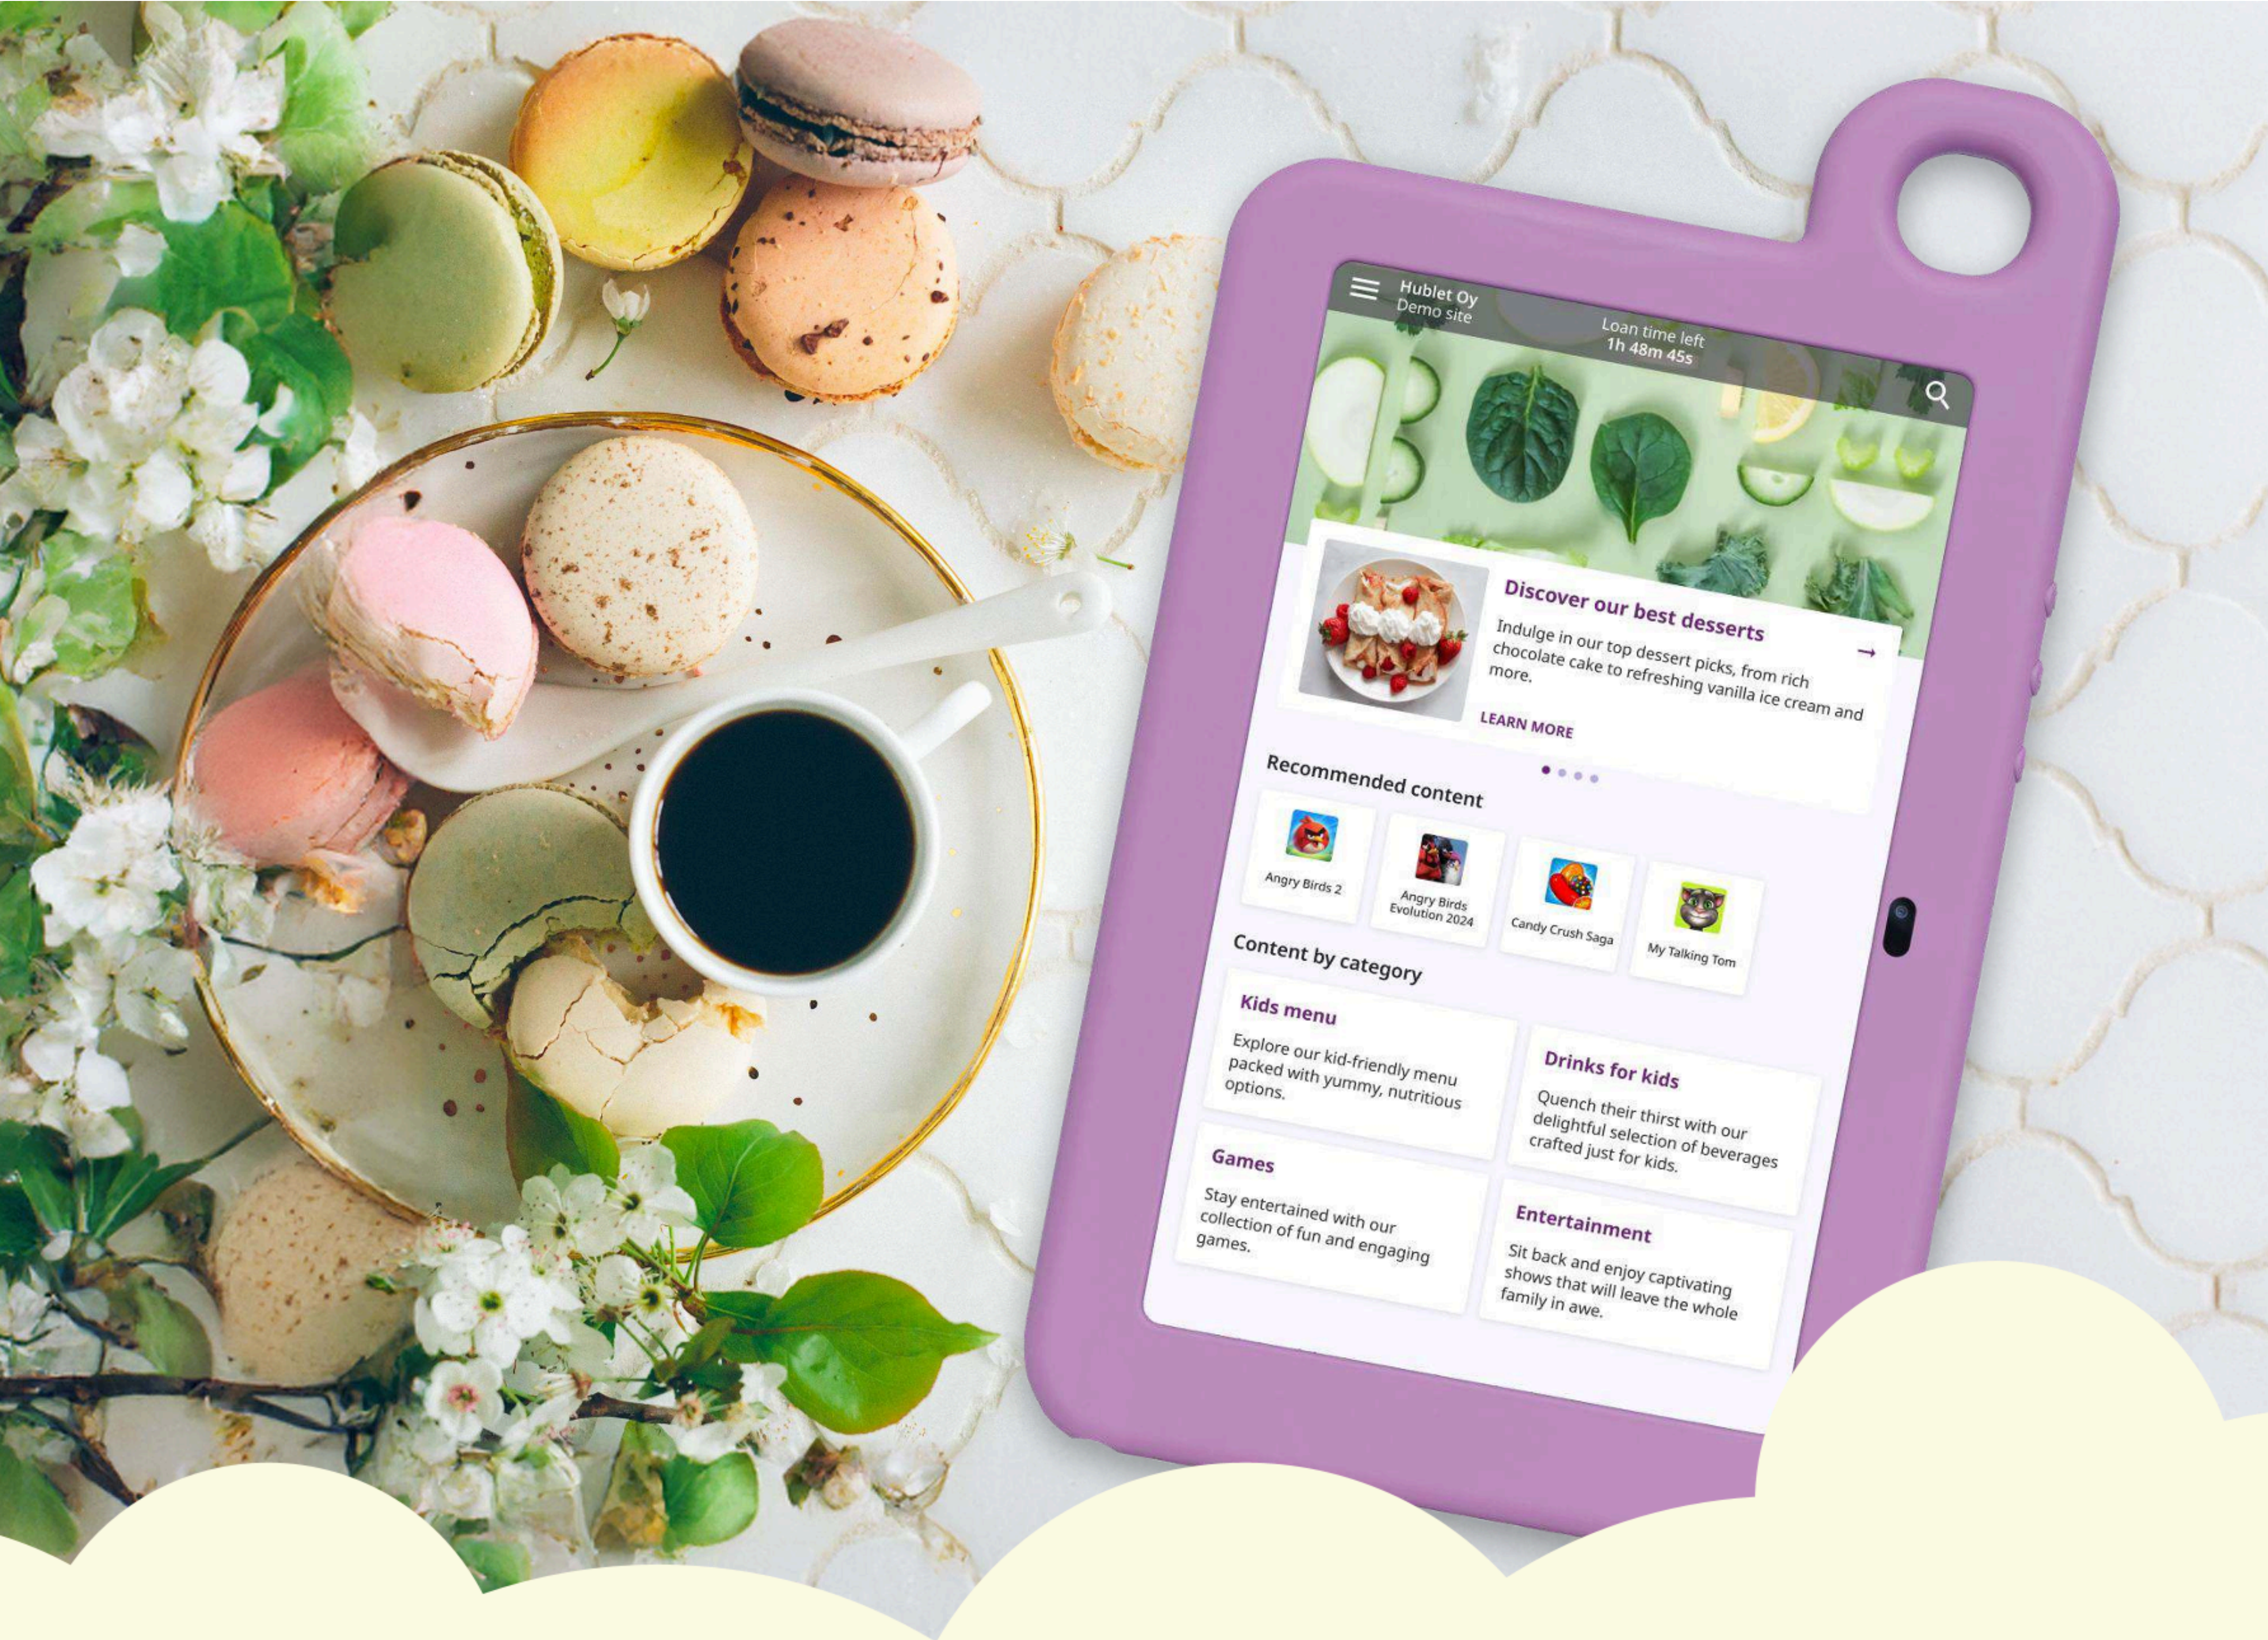

- ✓ Create educational profiles easily, tailored for various subjects and levels to meet users' needs.
- ✓ Organise and categorise curriculum effortlessly for better clarity.
- ✓ Quickly share study materials across classes and update profiles remotely, anytime.
- ✓ Utilise profiles for group work, research, and collaborative learning.
- ✓ Efficiently manage profiles and devices from one multilingual platform, accessible anywhere by multiple users.
- ✓ Ensure a safe digital environment for students within authorised networks.
- ✓ Safeguard devices from alteration and unauthorised access.
- ✓ Protect user privacy with automatic data wipe after each use on shared devices.
- ✓ Reduce costs by using shareable devices, minimising the need for individual student devices.

## Hublet for Museums

It's perfect for a transformative experience, providing interactive and personalised tours enriched with core exhibition experiences. It is ideal for school groups, businesses, and art experts to access targeted information at their own pace. Profiles also effortlessly facilitate event promotion, feedback collection, and marketing support.

- ✓ Quickly curate profiles to align with evolving exhibitions, remotely, in one platform.
- ✓ Enhance the visitor experience by providing in-depth exhibition information at their own pace.
- ✓ Easily share exhibition information in multiple languages.
- ✓ Engage visitors with digital interactive exhibitions.
- ✓ Reduce costs by using shareable devices, cut down on paper usage.
- ✓ Enable borrowing and return of devices without requiring staff intervention.
- ✓ Share information and collect feedback about the museum services.

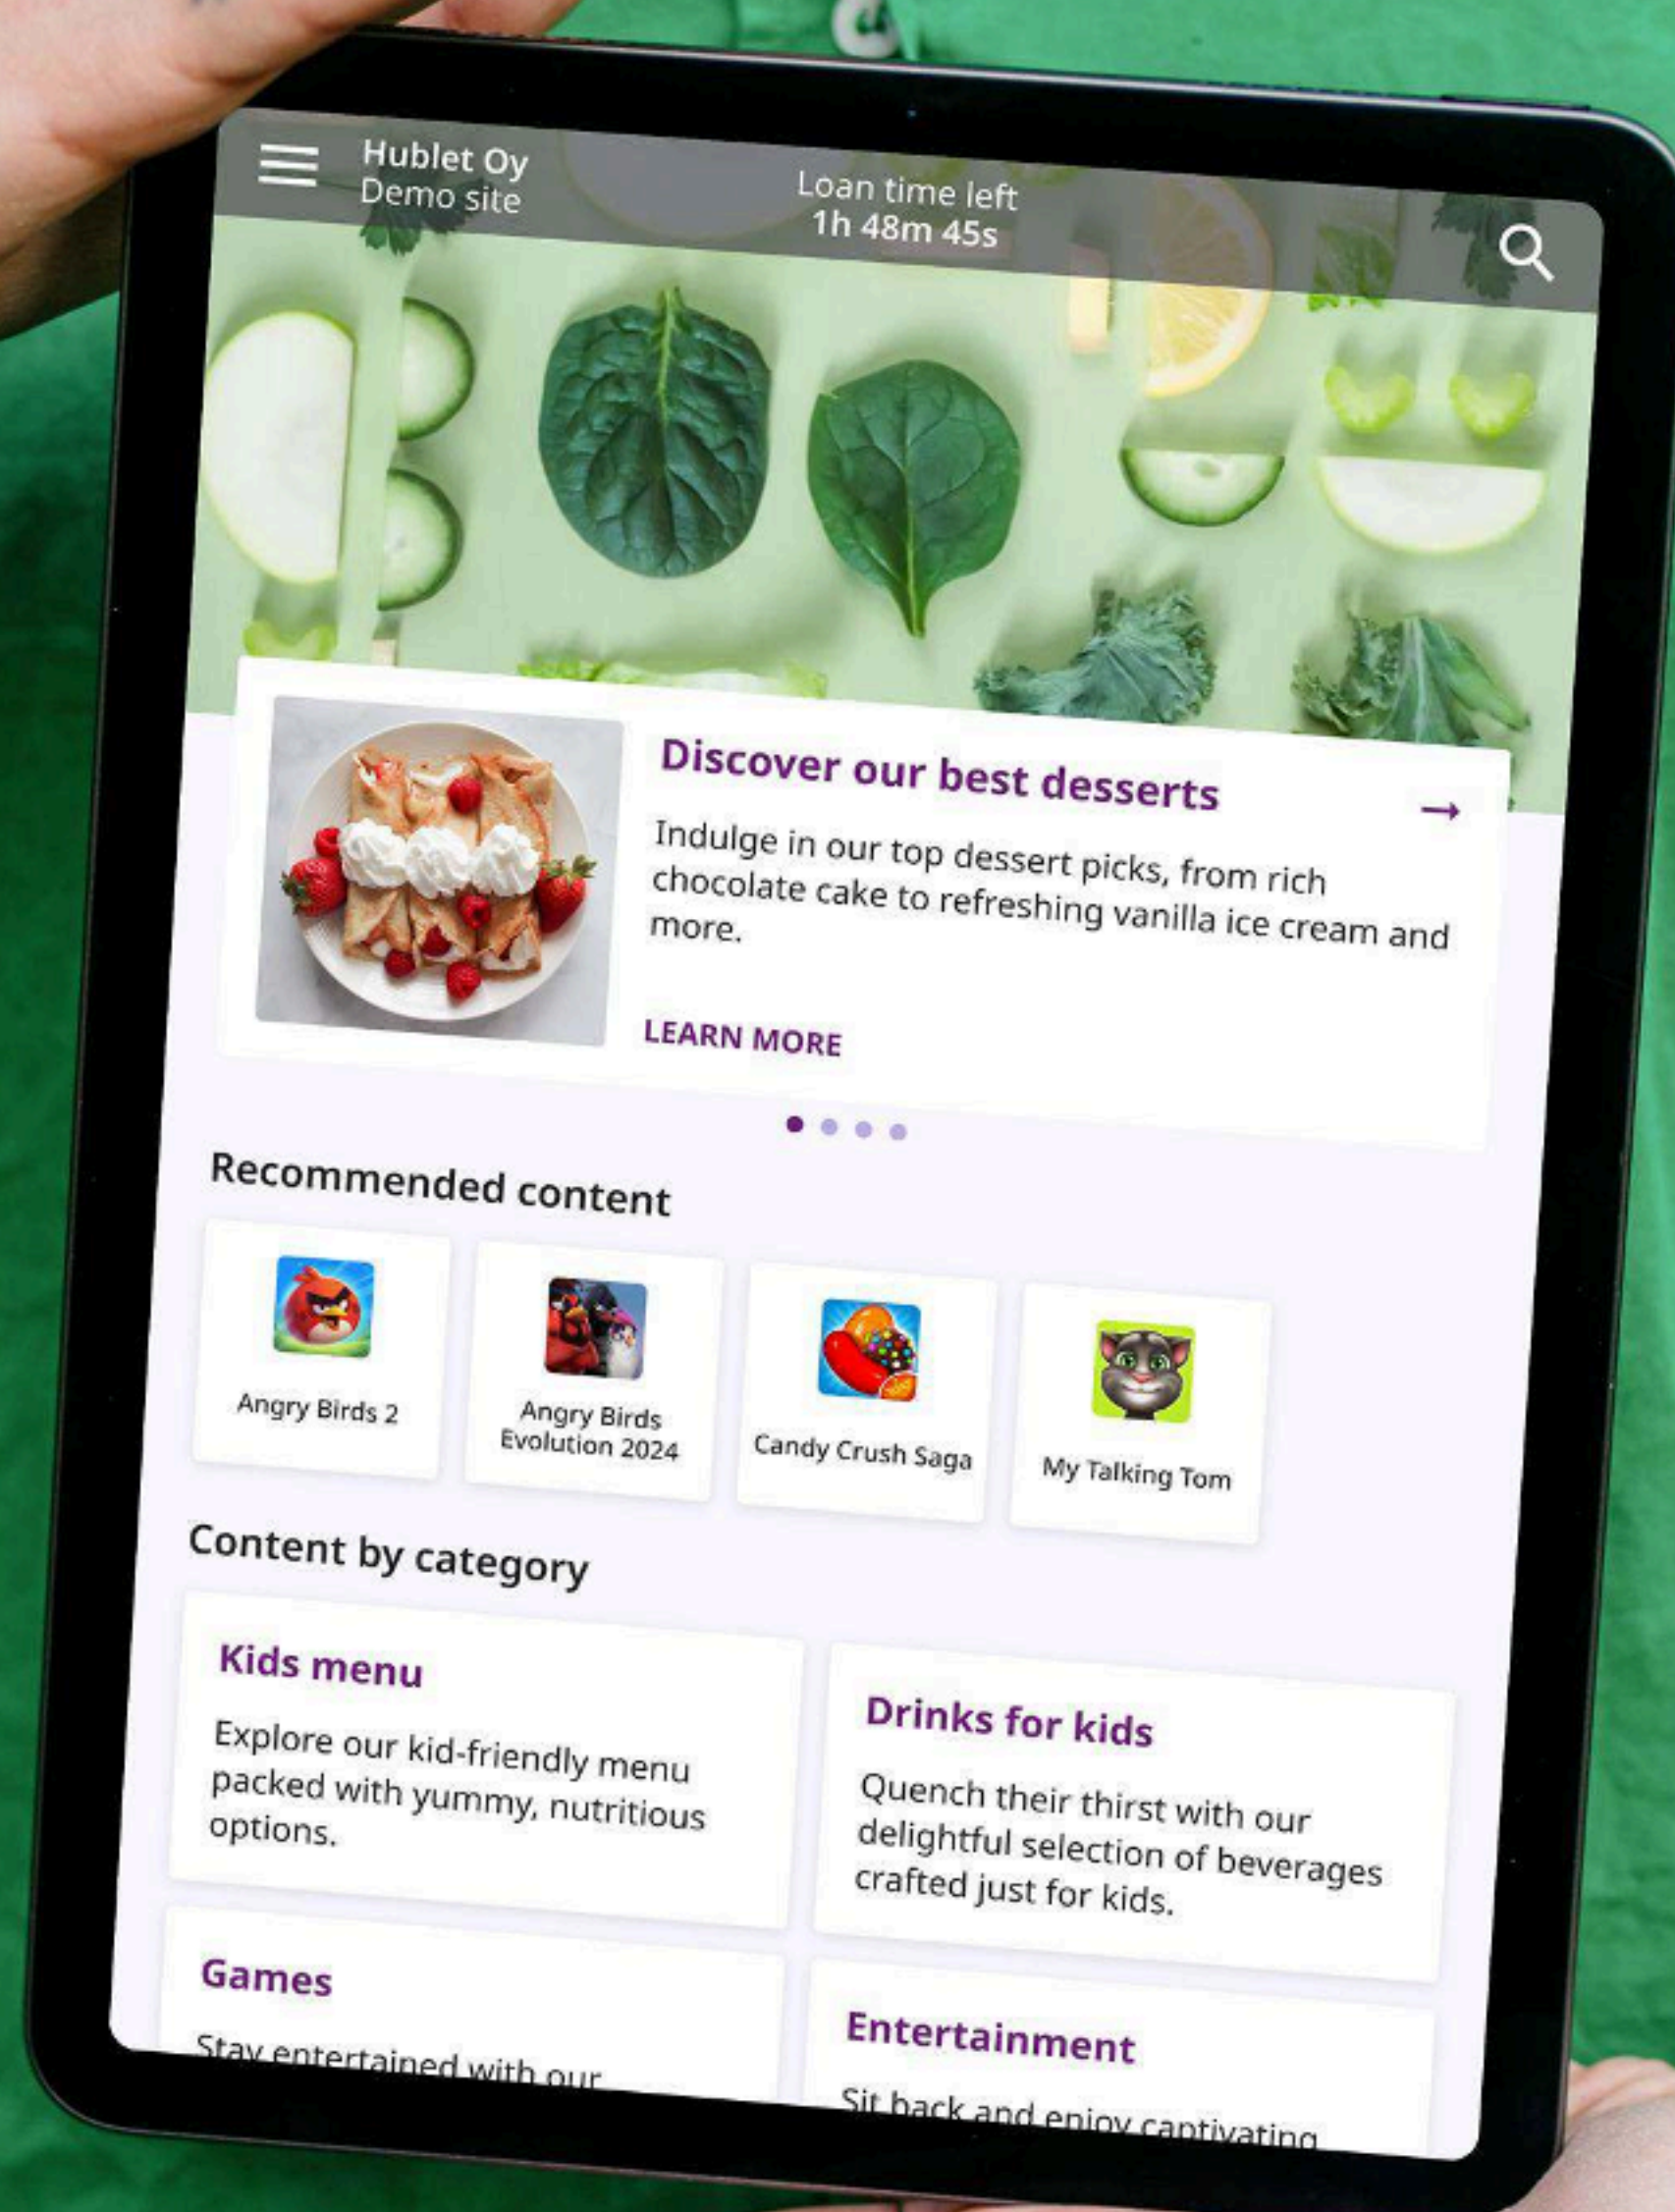

## Hublet for Hospitality

It's perfect for providing all guests with multilingual profiles featuring essential information, convenient services, and entertainment. Hublet Profiles offer scalable solutions to meet increasing customer service demands.

- ✔ Effortlessly create and personalise profiles for changing services and events.
- ✔ Clearly showcase your offerings, including food, drinks, and services.
- ✔ Keep young guests entertained with engaging games, puzzles, and age-appropriate content.
- ✔ Enhance guest experience by connecting with electronic order system.
- ✔ Utilise profiles to promote services and collect feedback.
- ✔ Support staff onboarding and training with staff profile.
- ✔ Save resources by utilising small amount of shared devices for multiple users.
- ✔ Ensure guest data privacy with automatic data wipe after each use on shared devices.
